UNION BANKSHARES CORPORATION AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Unaudited)

1. ACCOUNTING POLICIES

The Company

Headquartered in Richmond, Virginia, the Company is the holding company for the Bank which has 140 branches, seven of which are operated as Xenith Bank, a division of Union Bank & Trust of Richmond, Virginia, and approximately 190 ATMs located throughout Virginia and in portions of Maryland and North Carolina. Non-bank affiliates of the Company include: ODCM, DHFB, and OAL, each of which both provide investment advisory services, and Union Insurance Group, LLC, which offers various lines of insurance products.

The unaudited consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. Significant inter-company accounts and transactions have been eliminated in consolidation.

The unaudited consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information and follow general practice within the banking industry. Accordingly, the unaudited consolidated financial statements do not include all the information and footnotes required by U.S. GAAP for complete financial statements; however, in the opinion of management, all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of the interim periods presented have been made. The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the full year or any other period.

These unaudited consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's 2017 Form 10-K. Certain prior period amounts have been reclassified to conform to current period presentation.

Business Combinations and Divestitures

On January 1, 2018, the Company completed the acquisition of Xenith, a bank holding company based in Richmond, Virginia.

On April 1, 2018, the Bank completed its acquisition of DHFB, a Roanoke, Virginia-based investment advisory firm with approximately \$600 million in assets under management and advisement at the time of acquisition. DHFB operates as a subsidiary of the Bank.

On July 1, 2018, ODCM, a subsidiary of the Bank completed its acquisition of OAL, a McLean, Virginia-based investment advisory firm with approximately \$400 million in assets under management and advisement at the time of acquisition. OAL operates as a subsidiary of ODCM.

These transactions were accounted for using the acquisition method of accounting and, accordingly, assets acquired, liabilities assumed, and consideration exchanged were recorded at estimated fair values on the acquisition date. Fair values are preliminary and subject to refinement for up to one year after the closing date of the acquisition. The resulting goodwill from these transactions is not deductible for tax purposes.

Refer to Note 2 "Acquisitions" for further discussion on the Company's business combinations during the period.

On May 23, 2018, the Bank announced that it had entered into an agreement with a third party mortgage company, TFSB, to allow TFSB to offer residential mortgages from certain Bank locations on the terms and conditions set forth in the agreement. Concurrently with this arrangement, the Bank began the process of winding down the operations of UMG, the Company's reportable mortgage segment. Refer to Note 13 "Segment Reporting & Discontinued Operations" for further discussion of this agreement.

On June 29, 2018, the Bank entered into an agreement to sell substantially all of the assets and certain specific liabilities of Shore Premier, consisting primarily of marine loans totaling approximately \$383.9 million, for a purchase price consisting of approximately \$375.0 million in cash and 1,250,000 shares of the purchasing company's common stock. The purchasing company has agreed for a period of 30 days to pay additional cash consideration to the Company to the extent any sales of its common stock by the Company, following satisfaction of any required holding periods or other requirements under the Securities Act, are at prices lower than the agreed upon value at the time of entry into the agreement. The fair value of the purchasing company's common stock is evaluated quarterly and amounts that fall below the original purchase price are recorded as miscellaneous receivable on the Company's Consolidated Balance Sheets. At September 30, 2018, the fair value of

the purchasing company's common stock was \$27.4 million, which was included as "Marketable Equity Securities" in the Company's Consolidated Balance Sheet. The purchase of the loans was completed on June 29, 2018 and became effective at the end of the day on June 30, 2018. The sale generated an after-tax gain of approximately \$15.8 million, net of transaction and other related costs. Refer to Note 3 "Securities" and Note 8 "Derivatives" for further discussion on the Shore Premier sale.

On June 29, 2018, the Bank sold approximately \$206.3 million in consumer home improvement loans that had been originated through a third-party lending program. These loans were sold at par.

Affordable Housing Entities

The Company invests in private investment funds that make equity investments in multifamily affordable housing properties that provide affordable housing tax credits for these investments. The activities of these entities are financed with a combination of invested equity capital and debt. For the three and nine months ended September 30, 2018, the Company recognized amortization of \$227,000 and \$699,000, respectively, and tax credits of \$275,000 and \$839,000, respectively, associated with these investments within "Income tax expense" on the Company's Consolidated Statements of Income. For the three and nine months ended September 30, 2017, the Company recognized amortization of \$229,000 and \$643,000, respectively, and tax credits of \$240,000 and \$724,000, respectively. The carrying value of the Company's investments in these qualified affordable housing projects was \$11.1 million and \$11.0 million as of September 30, 2018 and December 31, 2017, respectively. At September 30, 2018 and December 31, 2017, the Company's recorded liability totaled \$5.6 million and \$7.3 million, respectively, for the related unfunded commitments, which are expected to be paid during the last quarter of 2018 or 2019.

Reclassifications

The accompanying unaudited consolidated financial statements and notes reflect reclassification of certain prior period amounts to conform to the current period presentation. The Company historically presented former bank premises and foreclosed properties as OREO; however, during the current quarter the Company segregated former bank premises and foreclosed properties due to the distinct differences underlying these assets. Foreclosed properties and former bank premises have been reclassified to "Other Assets" within the Company's Consolidated Balance Sheet for all periods presented.

Adoption of New Accounting Standards

On January 1, 2018, the Company adopted ASU No. 2014-09, "*Revenue from Contracts with Customers: Topic 606*" and all subsequent amendments to the ASU No. 2014-09 ("Topic 606"). This ASU revised guidance for the recognition, measurement, and disclosure of revenue from contracts with customers. The guidance, as amended, is applicable to all entities and replaces a significant portion of existing industry and transaction-specific revenue recognition rules with a more principles-based recognition model. Most revenue associated with financial instruments, including interest income, loan origination fees, and credit card fees, is outside the scope of the guidance. Gains and losses on investment securities, derivatives, and sales of financial instruments are similarly excluded from the scope. The Company adopted this ASU using the modified retrospective approach, which requires a cumulative effect adjustment to retained earnings as of the beginning of the reporting period in which the entity first applies the new guidance. The adoption of Topic 606 did not have a material impact on the Company's consolidated financial results but did result in expanded disclosures related to noninterest income and enhanced qualitative disclosures on the revenues within the scope of the new guidance. Refer to Note 11 "Revenue" for further discussion on the Company's accounting policies for revenue sources within the scope of Topic 606.

On January 1, 2018, the Company adopted ASU No. 2016-01, "*Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities.*" This ASU requires an entity to, among other things: (i) measure equity investments at fair value through net income, with certain exceptions; (ii) present in OCI the changes in instrument-specific credit risk for financial liabilities measured using the fair value option; (iii) present financial assets and financial liabilities by measurement category and form of financial asset; (iv) calculate the fair value of financial instruments for disclosure purposes based on an exit price and; (v) assess a valuation allowance on deferred tax assets related to unrealized losses of AFS debt securities in combination with other deferred tax assets. This ASU provides an election to subsequently measure certain nonmarketable equity investments at cost less any impairment and adjusted for certain observable price changes. This ASU also requires a qualitative impairment assessment of such equity investments and amends certain fair value disclosure requirements. The adoption of ASU No. 2016-01 did not have a material impact on the Company's consolidated financial statements and resulted in enhancements to the financial instrument disclosures.

On May 1, 2018, the Company early adopted ASU No. 2017-12, "*Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities.*" This ASU simplifies the application of the hedge accounting guidance and improves the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. The targeted improvements in ASU No. 2017-12 allowed the Company a one-time transfer of certain debt securities from HTM to AFS. The Company adopted this ASU using the modified retrospective approach. As

part of this adoption, the Company made a one-time election to transfer eligible HTM securities to the AFS category in order to optimize the investment portfolio management for capital and risk management considerations. The Company transferred HTM securities with a carrying amount of \$187.4 million, which resulted in an increase of approximately \$400,000 to AOCI. Refer to Note 3 "Securities" and Note 9 "Stockholders' Equity" for further discussion regarding the adoption.

On May 1, 2018, the Company early adopted ASU No. 2018-02, "*Income Statement—Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income.*" This ASU allows for a reclassification from AOCI to retained earnings for stranded tax effects resulting from the Tax Act and requires certain disclosures about the stranded tax effects. The Company reclassified approximately \$107,000 from AOCI to retained earnings during the second quarter 2018. Refer to Note 9 "Stockholders' Equity" for further discussion regarding the adoption.

The net impact to retained earnings of the adoption of ASU No. 2017-12 and ASU No. 2018-02 was \$293,000.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, "*Leases (Topic 842).*" This ASU requires lessees to put most leases on their balance sheets, but recognize expenses in the income statement in a manner similar to today's accounting. This ASU also eliminates the real estate-specific provisions and changes the guidance on sale-leaseback transactions, initial direct costs, and lease executory costs for all entities. For lessors, this ASU modifies the classification criteria and the accounting for sales-type and direct financing leases. This ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. The Company has implemented new lease systems in conjunction with the adoption. Management is progressing with implementation, including the review of service contracts for embedded leases, development of lease accounting policies, and evaluating potential new internal controls related to the implementation of this ASU. While the Company continues to evaluate this ASU and the effect of related disclosures, the primary effect of adoption will be to require recording right-of-use assets and corresponding lease obligations for current operating leases. Other implementation matters to be addressed include, but are not limited to, the determination of effects on the financial and capital ratios and the quantification of the impacts that this ASU will have on the Company's consolidated financial statements. Upon adoption, the Company expects to record a right of use asset and a corresponding lease liability for operating leases where the Company is the lessee. The potential impact to the Company's consolidated financial statements is largely based on the present value of future minimum lease payments, the amount of which will depend upon the population of leases in effect at the date of adoption. Refer to Note 5 "Premises and Equipment" of the Company's 2017 Form 10-K for information about the Company's future minimum lease payment for leases that were present as of December 31, 2017. As previously disclosed, the Company's 2017 Form 10-K does not include Xenith, which was acquired on January 1, 2018. The Company does not expect material changes to the recognition of operating lease expense in our consolidated statements of income.

In June 2016, the FASB issued ASU No. 2016-13, "*Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments.*" This ASU updates the existing guidance to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. This ASU replaces the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The CECL model will replace the Company's current accounting for PCI and impaired loans. This ASU also amends the AFS debt securities OTTI model. This ASU is effective for fiscal years beginning after December 15, 2019. The Company has established a cross-functional governance structure for the implementation of CECL. The Company is continuing to evaluate the impact ASU No. 2016-13 will have on its consolidated financial statements. This ASU contains significant differences from existing GAAP, and the implementation of this ASU may result in increases to the Company's reserves for credit losses of financial instruments; however, the quantitative impact cannot be reasonably estimated since this ASU relies on economic conditions and trends that will impact the Company's portfolio at the time of adoption.

In August 2018, the FASB issued ASU No. 2018-15, "*Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract.*" This ASU amends the Intangibles—Goodwill and Other Topic of the Accounting Standards Codification to align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. This ASU will be effective for the Company for fiscal years beginning after December 15, 2019. Early adoption is permitted. The Company does not expect this ASU to have a material effect on its financial statements.

2. ACQUISITIONS

Xenith Acquisition

On January 1, 2018, the Company completed its acquisition of Xenith, a bank holding company based in Richmond, Virginia. Holders of shares of Xenith's common stock received 0.9354 shares of the Company's common stock in exchange for each share of Xenith's common stock, resulting in the Company issuing 21,922,077 shares of the Company's common stock at a fair value of \$794.8 million. In addition, the Company paid \$6.2 million in exchange for Xenith's outstanding stock options.

The transaction was accounted for using the acquisition method of accounting and, accordingly, assets acquired, liabilities assumed, and consideration exchanged were recorded at estimated fair values on the acquisition date. Fair values are preliminary and subject to refinement for up to one year after the closing date of the acquisition, in accordance with ASC 350, *Intangibles-Goodwill and Other*. Measurement period adjustments that were made in the third quarter of 2018 include immaterial changes to the fair value of loans, accrued interest, and deferred rent. The Company will continue to keep the measurement period open for certain accounts, including loans, real estate, and deferred tax assets, where its review procedures of any updated information related to the transaction are ongoing. If considered necessary, additional adjustments to the fair value measurement of these accounts will be made until all information is finalized, the Company's review procedures are complete, and the measurement period is closed. The following table provides a preliminary assessment of the consideration transferred, assets acquired, and liabilities assumed as of the date of the acquisition (dollars in thousands):

Purchase Price:	
Fair value of shares of the Company's common stock issued & warrants converted	\$ 794,809
Cash paid for Xenith stock options	6,170
Total purchase price	\$ 800,979
Fair value of assets acquired:	
Cash and cash equivalents	\$ 174,218
AFS securities	295,782
Restricted stock, at cost	27,569
Net loans	2,454,151
Premises and equipment	44,912
OREO	5,250
Core deposit intangibles	38,470
Other assets	202,871
Total assets	\$ 3,243,223
Fair value of liabilities assumed:	
Deposits	\$ 2,549,683
Other short-term borrowings	235,000
Borrowings	55,542
Other liabilities	26,664
Total liabilities	\$ 2,866,889
Net assets acquired	\$ 376,334
Preliminary goodwill	\$ 424,645

The acquired loans were recorded at fair value at the acquisition date without carryover of Xenith's previously established ALL. The fair value of the loans was determined using market participant assumptions in estimating the amount and timing of both principal and interest cash flows expected to be collected on the loans and leases and then applying a market-based discount rate to those cash flows. In this regard, the acquired loans were segregated into pools based on loan type and credit risk. Loan type was determined based on collateral type, purpose, and lien position. Credit risk characteristics included risk rating groups (pass rated loans and adversely classified loans) and past due status. For valuation purposes, these pools were further disaggregated by maturity, pricing characteristics (e.g., fixed-rate, adjustable-rate) and re-payment structure (e.g., interest only, fully amortizing, balloon). If new information is obtained about facts and circumstances about expected cash flows that existed as of the acquisition date, management will adjust fair values in accordance with accounting for business combinations.

The acquired loans were divided into loans with evidence of credit quality deterioration which are accounted for under ASC 310-30, *Receivables - Loans and Debt Securities Acquired with Deteriorated Credit Quality*, (acquired impaired) and loans that do not meet these criteria, which are accounted for under ASC 310-20, *Receivables - Nonrefundable Fees and Other Costs*, (acquired performing). The fair values of the acquired performing loans were \$2.4 billion and the fair values of the acquired impaired loans were \$79.3 million. The gross contractually required principal and interest payments receivable for acquired performing loans was \$2.7 billion. The best estimate of contractual cash flows not expected to be collected related to the acquired performing loans is \$20.6 million.

The following table presents the acquired impaired loans receivable at the acquisition date (dollars in thousands):

Contractually required principal and interest payments	\$	114,270
Nonaccretable difference		(19,800)
Cash flows expected to be collected		94,470
Accretable difference		(15,206)
Fair value of loans acquired with a deterioration of credit quality	\$	79,264

The following table presents certain pro forma information as if Xenith had been acquired on January 1, 2017. These results combine the historical results of Xenith in the Company's Consolidated Statements of Income and, while certain adjustments were made for the estimated impact of certain fair value adjustments and other acquisition-related activity, they are not indicative of what would have occurred had the acquisition taken place on January 1, 2017. In particular, no adjustments have been made to eliminate the amount of Xenith's provision for credit losses that would not have been necessary had the acquired loans been recorded at fair value as of January 1, 2017. Pro forma adjustments below include the net impact of accretion for 2017 and the elimination of merger-related costs for 2018. The Company expects to achieve further operating cost savings and other business synergies, including branch closures, as a result of the acquisition which are not reflected in the pro forma amounts below (dollars in thousands):

	Pro forma for the three months ended		Pro forma for the nine months ended	
	September 30,		September 30,	
	2018	2017	2018	2017
	<i>(unaudited)</i>	<i>(unaudited)</i>	<i>(unaudited)</i>	<i>(unaudited)</i>
Total revenues ⁽¹⁾	\$ 125,850	\$ 118,039	\$ 398,354	\$ 350,465
Net income	\$ 39,326	\$ 28,997	\$ 132,065	\$ 83,675
EPS	\$ 0.60	\$ 0.44	\$ 2.01	\$ 1.27

(1) Includes net interest income and noninterest income.

Merger-related costs associated with the acquisition of Xenith were \$1.4 million and \$732,000 for the three months ended September 30, 2018 and 2017, respectively, and \$37.4 million and \$3.5 million for the nine months ended September 30, 2018 and 2017, respectively. Such costs include legal and accounting fees, lease and contract termination expenses, system conversion, and employee severances, which have been expensed as incurred.

DHFB Acquisition

On April 1, 2018, the Bank completed its acquisition of DHFB, a Roanoke, Virginia-based investment advisory firm with approximately \$600.0 million in assets under management and advisement at the time of the acquisition. The acquisition date fair value of consideration transferred totaled \$7.4 million, which consisted of \$4.8 million in cash and the remainder being contingent on achieving certain performance metrics. The contingent consideration is carried at fair value and is reported as a component of "Other Liabilities" in the Company's Consolidated Balance Sheet. The fair value of this liability will be assessed at each reporting period.

In connection with this transaction, the Company recorded \$3.6 million in goodwill and \$4.1 million of amortizable intangible assets, which primarily relate to the value of customer relationships. The Company is amortizing these intangible assets over the period of expected benefit, which ranges from 5 to 16 years using various methods. The transaction was accounted for using the acquisition method of accounting, and accordingly, assets acquired, liabilities assumed, and consideration exchanged were recorded at estimated fair values on the acquisition date. The fair values are subject to refinement for up to one year after

the closing date of the acquisition, in accordance with ASC 350, *Intangibles-Goodwill and Other*. Measurement period adjustments that were made in the third quarter of 2018 include immaterial changes to the fair value of intangible assets. The Company did not incur any material expenses related to the acquisition of DHFB.

OAL Acquisition

On July 1, 2018, ODCM, a subsidiary of the Bank, completed its acquisition of OAL, a McLean, Virginia-based investment advisory firm with approximately \$400 million in assets under management and advisement at the time of the acquisition. The acquisition date fair value of consideration transferred totaled \$5.9 million, which consisted of \$3.4 million in cash and the remainder being contingent on achieving certain performance metrics. The contingent consideration is carried at fair value and is reported as a component of "Other Liabilities" in the Company's Consolidated Balance Sheet. The fair value of this liability will be assessed at each reporting period.

In connection with this transaction, the Company recorded \$1.8 million in goodwill and \$3.8 million of amortizable intangible assets, which primarily relate to the value of customer relationships. The Company is amortizing these intangible assets over the period of expected benefit, which ranges from 1 to 14 years using various methods. The transaction was accounted for using the acquisition method of accounting, and accordingly, assets acquired, liabilities assumed, and consideration exchanged were recorded at estimated fair values on the acquisition date. The fair values are subject to refinement for up to one year after the closing date of the acquisition, in accordance with ASC 350, *Intangibles-Goodwill and Other*. The Company did not incur any material expenses related to the acquisition of OAL.

3. SECURITIES

Available for Sale

The amortized cost, gross unrealized gains and losses, and estimated fair values of AFS securities as of September 30, 2018 and December 31, 2017 are summarized as follows (dollars in thousands):

	Amortized Cost	Gross Unrealized		Estimated Fair Value
		Gains	(Losses)	
September 30, 2018				
Obligations of states and political subdivisions	\$ 566,268	\$ 3,380	\$ (6,175)	\$ 563,473
Corporate and other bonds ⁽¹⁾	163,117	382	(2,007)	161,492
Mortgage-backed securities	1,170,410	798	(24,295)	1,146,913
Other securities	11,447	—	(184)	11,263
Total AFS securities	\$ 1,911,242	\$ 4,560	\$ (32,661)	\$ 1,883,141
December 31, 2017				
Obligations of states and political subdivisions	\$ 295,546	\$ 6,842	\$ (564)	\$ 301,824
Corporate and other bonds	113,625	1,131	(876)	113,880
Mortgage-backed securities	552,431	2,596	(6,169)	548,858
Other securities	9,737	—	(77)	9,660
Total AFS securities	\$ 971,339	\$ 10,569	\$ (7,686)	\$ 974,222

(1) Other bonds includes asset-backed securities.

The following table shows the gross unrealized losses and fair value of the Company's AFS securities with unrealized losses that are not deemed to be other-than-temporarily impaired as of September 30, 2018 and December 31, 2017 (dollars in thousands). These are aggregated by investment category and length of time that the individual securities have been in a continuous unrealized loss position.

	Less than 12 months		More than 12 months		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
September 30, 2018						
Obligations of states and political subdivisions	\$ 377,882	\$ (5,814)	\$ 7,674	\$ (361)	\$ 385,556	\$ (6,175)
Mortgage-backed securities	794,067	(14,057)	245,879	(10,237)	1,039,946	(24,294)
Corporate bonds and other securities	89,225	(1,003)	38,557	(1,189)	127,782	(2,192)
Total AFS securities	\$ 1,261,174	\$ (20,874)	\$ 292,110	\$ (11,787)	\$ 1,553,284	\$ (32,661)
December 31, 2017						
Obligations of states and political subdivisions	\$ 25,790	\$ (132)	\$ 16,934	\$ (432)	\$ 42,724	\$ (564)
Mortgage-backed securities	298,439	(3,267)	136,298	(2,902)	434,737	(6,169)
Corporate bonds and other securities	10,976	(99)	44,408	(854)	55,384	(953)
Total AFS securities	\$ 335,205	\$ (3,498)	\$ 197,640	\$ (4,188)	\$ 532,845	\$ (7,686)

As of September 30, 2018, there were \$292.1 million, or 108 issues, of individual AFS securities that had been in a continuous loss position for more than 12 months and had an aggregate unrealized loss of \$11.8 million. As of December 31, 2017, there were \$197.6 million, or 71 issues, of individual securities that had been in a continuous loss position for more than 12 months and had an aggregate unrealized loss of \$4.2 million. The Company has determined that these securities are temporarily impaired at September 30, 2018 and December 31, 2017 for the reasons set out below:

Mortgage-backed securities. This category's unrealized losses are primarily the result of interest rate fluctuations. Because the decline in market value is attributable to changes in interest rates and not credit quality, the Company does not intend to sell the investments, and the accounting standard of "more likely than not" has not been met for the Company to be required to sell any of the investments before recovery of their amortized cost basis, which may be maturity, the Company does not consider those investments to be other-than-temporarily impaired. Also, the majority of the Company's mortgage-backed securities are agency-backed securities, which have a government guarantee.

Obligations of state and political subdivisions. This category's unrealized losses are primarily the result of interest rate fluctuations and ratings downgrades for a limited number of securities brought about by the impact of the credit crisis on states and political subdivisions. The contractual terms of the investments do not permit the issuer to settle the securities at a price less than the cost basis of each investment. Because the Company does not intend to sell any of the investments and the accounting standard of "more likely than not" has not been met for the Company to be required to sell any of the investments before recovery of its amortized cost basis, which may be maturity, the Company does not consider these investments to be other-than-temporarily impaired.

Corporate and other bonds. This category's unrealized losses are the result of interest rate fluctuations and ratings downgrades for a limited number of securities. The majority of these securities remain investment grade and the Company's analysis did not indicate the existence of a credit loss. The contractual terms of the investments do not permit the issuer to settle the securities at a price less than the cost basis of each investment. Because the Company does not intend to sell any of the investments and the accounting standard of "more likely than not" has not been met for the Company to be required to sell any of the investments before recovery of its amortized cost basis, which may be maturity, the Company does not consider these investments to be other-than-temporarily impaired.

The following table presents the amortized cost and estimated fair value of AFS securities as of September 30, 2018 and December 31, 2017, by contractual maturity (dollars in thousands). Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	September 30, 2018		December 31, 2017	
	Amortized Cost	Estimated Fair Value	Amortized Cost	Estimated Fair Value
Due in one year or less	\$ 40,367	\$ 40,342	\$ 25,179	\$ 25,326
Due after one year through five years	213,662	209,552	145,276	145,980
Due after five years through ten years	273,207	271,360	223,210	226,251
Due after ten years	1,384,006	1,361,887	577,674	576,665
Total AFS securities	\$ 1,911,242	\$ 1,883,141	\$ 971,339	\$ 974,222

Refer to Note 7 "Commitments and Contingencies" for information regarding the estimated fair value of AFS securities that were pledged to secure public deposits, repurchase agreements, and for other purposes as permitted or required by law as of September 30, 2018 and December 31, 2017.

Held to Maturity

During the second quarter of 2018, the Company adopted ASU No. 2017-12, "Derivatives and Hedging (Topic 825): Targeted Improvements to Accounting for Hedging Activities." As part of this adoption, the Company made a one-time election to transfer eligible HTM securities to the AFS category in order to optimize the investment portfolio management for capital and risk management considerations. These securities had a carrying value of \$187.4 million on the date of the transfer.

The Company reports HTM securities on the Company's Consolidated Balance Sheets at carrying value. Carrying value is amortized cost which includes any unamortized unrealized gains and losses recognized in accumulated other comprehensive income prior to reclassifying the securities from AFS securities to HTM securities. Investment securities transferred into the HTM category from the AFS category are recorded at fair value at the date of transfer. The unrealized holding gain or loss at the date of transfer is retained in accumulated other comprehensive income and in the carrying value of the HTM securities. Such unrealized gains or losses are accreted over the remaining life of the security with no impact on future net income.

The carrying value, gross unrealized gains and losses, and estimated fair values of HTM securities as of September 30, 2018 and December 31, 2017 are summarized as follows (dollars in thousands):

	Carrying Value ⁽¹⁾	Gross Unrealized		Estimated Fair Value
		Gains	(Losses)	
September 30, 2018				
Obligations of states and political subdivisions	\$ 235,333	\$ 25	\$ (2,648)	\$ 232,710
December 31, 2017				
Obligations of states and political subdivisions	\$ 199,639	\$ 4,014	\$ (170)	\$ 203,483

(1) The carrying value includes \$125,000 as of September 30, 2018 and \$3.6 million as of December 31, 2017 of net unrealized gains present at the time of transfer from AFS securities, net of any accretion.

The following table shows the gross unrealized losses and fair value of the Company's HTM securities with unrealized losses that are not deemed to be other-than-temporarily impaired as of September 30, 2018 and December 31, 2017 (dollars in thousands). These are aggregated by investment category and length of time that the individual securities have been in a continuous unrealized loss position.

	Less than 12 months		More than 12 months		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
September 30, 2018						
Obligations of states and political subdivisions	\$ 213,882	\$ (2,648)	\$ —	\$ —	\$ 213,882	\$ (2,648)
December 31, 2017						
Obligations of states and political subdivisions	\$ 18,896	\$ (139)	\$ 1,084	\$ (31)	\$ 19,980	\$ (170)

As of September 30, 2018, there were no issues of individual HTM securities that had been in a continuous loss position for more than 12 months. As of December 31, 2017, there was \$1.1 million, or two issues, of individual HTM securities that had been in a continuous loss position for more than 12 months and had an aggregate unrealized loss of \$31,000. These securities were municipal bonds with minimal credit exposure. For this reason, the Company has determined that these securities in a loss position were temporarily impaired as of December 31, 2017. Because the Company does not intend to sell these investments and the accounting standard of "more likely than not" has not been met for the Company to be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Company does not consider these investments to be other-than-temporarily impaired.

The following table presents the amortized cost and estimated fair value of HTM securities as of September 30, 2018 and December 31, 2017, by contractual maturity (dollars in thousands). Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	September 30, 2018		December 31, 2017	
	Carrying Value ⁽¹⁾	Estimated Fair Value	Carrying Value ⁽¹⁾	Estimated Fair Value
Due in one year or less	\$ —	\$ —	\$ 3,221	\$ 3,230
Due after one year through five years	3,917	3,889	44,289	44,601
Due after five years through ten years	3,500	3,479	79,114	80,532
Due after ten years	227,916	225,342	73,015	75,120
Total HTM securities	\$ 235,333	\$ 232,710	\$ 199,639	\$ 203,483

(1) The carrying value includes \$125,000 as of September 30, 2018 and \$3.6 million as of December 31, 2017 of net unrealized gains present at the time of transfer from AFS securities, net of any accretion.

Refer to Note 7 "Commitments and Contingencies" for information regarding the estimated fair value of HTM securities that were pledged to secure public deposits as permitted or required by law as of September 30, 2018 and December 31, 2017.

Marketable Equity Securities

In connection with the Shore Premier sale, the Company received 1,250,000 shares of the purchasing company's common stock. For a limited time the purchasing company has agreed to pay additional cash consideration to the Company to the extent any sales of its common stock by the Company are at prices lower than agreed upon value at the time of entry into the agreement. The fair value of the common stock is evaluated quarterly and amounts that fall below the original purchase price are recorded as a miscellaneous receivable on the Company's Consolidated Balance Sheets. At September 30, 2018, the fair value of the purchasing company's common stock was \$27.4 million and was included as "Marketable Equity Securities" in the Company's Consolidated Balance Sheet. Refer to Note 1 "Accounting Policies" and Note 8 "Derivatives" for more information regarding the Shore Premier sale.

Restricted Stock, at cost

Due to restrictions placed upon the Bank's common stock investment in the Federal Reserve Bank and FHLB, these securities have been classified as restricted equity securities and carried at cost. These restricted securities are not subject to the investment security classifications and are included as a separate line item on the Company's Consolidated Balance Sheets. At September 30, 2018 and December 31, 2017, the FHLB required the Bank to maintain stock in an amount equal to 4.25% of outstanding borrowings and a specific percentage of the Bank's total assets. The Federal Reserve Bank required the Bank to maintain stock with a par value equal to 6% of the Bank's outstanding capital at both September 30, 2018 and December 31, 2017. Restricted equity securities consist of Federal Reserve Bank stock in the amount of \$52.6 million and \$27.6 million for September 30, 2018 and December 31, 2017 and FHLB stock in the amount of \$59.8 million and \$47.7 million as of September 30, 2018 and December 31, 2017, respectively.

Other-Than-Temporary-Impairment

During each quarter, the Company conducts an assessment of the securities portfolio for OTTI consideration. The assessment considers factors such as external credit ratings, delinquency coverage ratios, market price, management's judgment, expectations of future performance, and relevant industry research and analysis. An impairment is other-than-temporary if any of the following conditions exist: the entity intends to sell the security; it is more likely than not that the entity will be required to sell the security before recovery of its amortized cost basis; or the entity does not expect to recover the security's entire amortized cost basis (even if the entity does not intend to sell). If a credit loss exists, but an entity does not intend to sell the impaired debt security and is not more likely than not to be required to sell before recovery, the impairment is other-than-temporary and should be separated into a credit portion to be recognized in earnings and the remaining amount relating to all other factors recognized as other comprehensive loss. Based on the assessment for the three and nine months ended September 30, 2018, and in accordance with accounting guidance, no OTTI was recognized.

Realized Gains and Losses

The following table presents the gross realized gains and losses on and the proceeds from the sale of securities during the three and nine months ended September 30, 2018 and 2017 (dollars in thousands).

	Three Months Ended September 30, 2018	Nine Months Ended September 30, 2018
Realized gains (losses):		
Gross realized gains	\$ 97	\$ 2,890
Gross realized losses	—	(2,668)
Net realized gains	\$ 97	\$ 222
Proceeds from sales of securities	\$ 27,593	\$ 337,109

	Three Months Ended September 30, 2017	Nine Months Ended September 30, 2017
Realized gains (losses):		
Gross realized gains	\$ 296	\$ 958
Gross realized losses	(112)	(176)
Net realized gains	\$ 184	\$ 782
Proceeds from sales of securities	\$ 39,284	\$ 91,911

4. LOANS AND ALLOWANCE FOR LOAN LOSSES

Loans are stated at their face amount, net of deferred fees and costs, and consist of the following at September 30, 2018 and December 31, 2017 (dollars in thousands):

	<u>September 30, 2018</u>	<u>December 31, 2017</u>
Construction and Land Development	\$ 1,178,054	\$ 948,791
Commercial Real Estate - Owner Occupied	1,283,125	943,933
Commercial Real Estate - Non-Owner Occupied	2,427,251	1,713,659
Multifamily Real Estate	542,662	357,079
Commercial & Industrial	1,154,583	612,023

The Company considers TDRs to be impaired loans. A modification of a loan's terms constitutes a TDR if the creditor grants a concession that it would not otherwise consider to the borrower for economic or legal reasons related to the borrower's financial difficulties. All loans that are considered to be TDRs are evaluated for impairment in accordance with the Company's ALL methodology and are included in the preceding impaired loan tables. For the three and nine months ended September 30, 2018, the recorded investment in TDRs prior to modifications was not materially impacted by the modification.

The following table provides a summary, by segment, of TDRs that continue to accrue interest under the terms of the applicable restructuring agreement, which are considered to be performing, and TDRs that have been placed on nonaccrual status, which are considered to be nonperforming, as of September 30, 2018 and December 31, 2017 (dollars in thousands):

⁽¹⁾Consumer and Other Commercial are grouped together as Consumer and all other for reporting purposes.

The Company uses a risk rating system and past due status as the primary credit quality indicators for the loan categories. The risk rating system on a scale of 0 through 9 is used to determine risk level as used in the calculation of the ALL; on those loans without a risk rating, the Company uses past due status to determine risk level. The risk levels, as described below, do not necessarily follow the regulatory definitions of risk levels with the same name. A general description of the characteristics of the risk levels follows:

Pass is determined by the following criteria:

- Risk rated 0 loans have little or no risk and are with General Obligation Municipal Borrowers;
- Risk rated 1 loans have little or no risk and are generally secured by cash or cash equivalents;
- Risk rated 2 loans have minimal risk to well qualified borrowers and no significant questions as to safety;
- Risk rated 3 loans are satisfactory loans with strong borrowers and secondary sources of repayment;
- Risk rated 4 loans are satisfactory loans with borrowers not as strong as risk rated 3 loans and may exhibit a greater degree of financial risk based on the type of business supporting the loan; or
- Loans that are not risk rated but that are 0 to 29 days past due.

Special Mention is determined by the following criteria:

- Risk rated 5 loans are watch loans that warrant more than the normal level of supervision and have the possibility of an event occurring that may weaken the borrower's ability to repay;
- Risk rated 6 loans have increasing potential weaknesses beyond those at which the loan originally was granted and if not addressed could lead to inadequately protecting the Company's credit position; or
- Loans that are not risk rated but that are 30 to 89 days past due.

Substandard is determined by the following criteria:

- Risk rated 7 loans are substandard loans and are inadequately protected by the current sound worth or paying capacity of the obligor or the collateral pledged; these have well defined weaknesses that jeopardize the liquidation of the debt with the distinct possibility the Company will sustain some loss if the deficiencies are not corrected; or
- Loans that are not risk rated but that are 90 to 149 days past due.

Doubtful is determined by the following criteria:

- Risk rated 8 loans are doubtful of collection and the possibility of loss is high but pending specific borrower plans for recovery, its classification as a loss is deferred until its more exact status is determined;
- Risk rated 9 loans are loss loans which are considered uncollectable and of such little value that their continuance as bankable assets is not warranted; or
- Loans that are not risk rated but that are over 149 days past due.

The following table shows the recorded investment in all loans, excluding PCI loans, by segment with their related risk level as of September 30, 2018 (dollars in thousands):

	Pass	Special Mention	Substandard	Doubtful	Total

Loans acquired are originally recorded at fair value, with certain loans being identified as impaired at the date of purchase. The fair values were determined based on the credit quality of the portfolio, expected future cash flows, and timing of those expected future cash flows.

The following shows changes in the accretible yield for loans accounted for under ASC 310-30, *Receivables – Loans and Debt Securities Acquired with Deteriorated Credit Quality*, for the periods presented (dollars in thousands):

	For the Nine Months Ended September 30,	
	2018	2017
Balance at beginning of period	\$ 14,563	\$ 19,739
Additions	12,225	—
Accretion	(6,666)	(4,896)
Reclassification of nonaccretible difference due to improvement in expected cash flows	360	2,175
Measurement period adjustment	2,981	—
Other, net ⁽¹⁾	1,845	(452)
Balance at end of period	\$ 25,308	\$ 16,566

⁽¹⁾ This line item represents changes in the cash flows expected to be collected due to the impact of non-credit changes such as prepayment assumptions, changes in interest rates on variable rate PCI loans, and discounted payoffs that occurred in the quarter.

The carrying value of the Company's PCI loan portfolio, accounted for under ASC 310-30, *Receivables - Loans and Debt Securities Acquired with Deteriorated Credit Quality*, totaled \$94.7 million at September 30, 2018 and \$39.0 million at December 31, 2017. The outstanding balance of the Company's PCI loan portfolio totaled \$119.1 million at September 30, 2018 and \$47.9 million at December 31, 2017. The carrying value of the Company's acquired performing loan portfolio, accounted for under ASC 310-20, *Receivables – Nonrefundable Fees and Other Costs*, totaled \$2.2 billion at September 30, 2018 and \$892.4 million at December 31, 2017; the remaining discount on these loans totaled \$33.4 million at September 30, 2018 and \$13.7 million at December 31, 2017.

5. INTANGIBLE ASSETS

During the nine months ended September 30, 2018, the Company acquired Xenith, DHFB, and OAL as part of the Company's strategic growth plan. The Company's intangible assets consist of core deposits, goodwill, and other intangibles arising from acquisitions. The Company has determined that core deposit intangibles have finite lives and amortizes them over their estimated useful lives. Core deposit intangibles are being amortized over the period of expected benefit, which ranges from 4 to 14 years, using an accelerated method. Other amortizable intangible assets are being amortized over the period of expected benefit, which ranges from 5 to 16 years, using various methods. Refer to Note 2 "Acquisitions" for further information regarding intangible assets.

In accordance with ASC 350, *Intangibles-Goodwill and Other*, the Company reviews the carrying value of indefinite lived intangible assets at least annually or more frequently if certain impairment indicators exist. The Company performed its annual impairment testing in the second quarter of 2018. In connection with the wind down of UMG, during the second quarter of 2018, the Company wrote off the goodwill in the amount of \$864,000, which is included in discontinued operations.

Amortization expense of intangibles for the three and nine months ended September 30, 2018 totaled \$3.5 million and \$9.9 million, respectively, and for the three and nine months ended September 30, 2017 totaled \$1.5 million and \$4.7 million, respectively. As of September 30, 2018, the estimated remaining amortization expense of intangibles is as follows (dollars in thousands):

For the remaining three months of 2018	\$	3,196
For the year ending December 31, 2019		11,521
For the year ending December 31, 2020		9,586
For the year ending December 31, 2021		7,498
For the year ending December 31, 2022		5,656
Thereafter		14,106
Total estimated amortization expense	\$	51,563

6. BORROWINGS

Short-term Borrowings

The Company classifies all borrowings that will mature within a year from the date on which the Company enters into them as short-term borrowings. Total short-term borrowings consist primarily of advances from the FHLB, federal funds purchased (which are secured overnight borrowings from other financial institutions), and other lines of credit. Also included in total short-term borrowings are securities sold under agreements to repurchase, which are secured transactions with customers and generally mature the day following the date sold. Total short-term borrowings consist of the following as of September 30, 2018 and December 31, 2017 (dollars in thousands):

	September 30, 2018	December 31, 2017
Securities sold under agreements to repurchase	\$ 40,624	\$ 49,152
Federal funds purchased	90,000	—
FHLB	926,250	745,000
Total short-term borrowings	\$ 1,056,874	\$ 794,152
Maximum month-end outstanding balance	\$ 1,056,874	\$ 794,152
Average outstanding balance during the period	972,224	602,553
Average interest rate (during the period)	1.76%	1.00%
Average interest rate at end of period	2.10%	1.32%

The Bank maintains federal funds lines with several correspondent banks, the remaining available balance of which was \$292.0 million and \$227.0 million at September 30, 2018 and December 31, 2017, respectively. The Company maintains an alternate line of credit at a correspondent bank, the available balance of which was \$25.0 million at both September 30, 2018 and December 31, 2017. The Company has certain restrictive covenants related to certain asset quality, capital, and profitability metrics associated with these lines and is considered to be in compliance with such covenants as of September 30, 2018. Additionally, the Company had a collateral dependent line of credit with the FHLB of up to \$3.9 billion and \$2.7 billion at September 30, 2018 and December 31, 2017, respectively.

Long-term Borrowings

In connection with several previous bank acquisitions, the Company issued and acquired trust preferred capital notes of \$58.5 million and \$32.0 million, respectively. In connection with the acquisition of Xenith on January 1, 2018, the Company acquired trust preferred capital notes totaling \$55.0 million with a fair value discount of \$9.9 million. The remaining fair value discount on all acquired trust preferred capital notes was \$15.8 million at September 30, 2018. The trust preferred capital notes currently qualify for Tier 1 capital of the Company for regulatory purposes. Our trust preferred capital notes consist of the following as of September 30, 2018:

	Trust Preferred Capital Securities ⁽¹⁾	Investment ⁽¹⁾	Spread to 3-Month LIBOR	Rate ⁽²⁾	Maturity
Trust Preferred Capital Note - Statutory Trust I	\$ 22,500,000	\$ 696,000	2.75%	5.15%	6/17/2034

Gateway Capital Statutory Trust II	7,000,000	217,000	2.65%	5.05%	6/17/2034
Gateway Capital Statutory Trust III	15,000,000	464,000	1.50%	3.90%	5/30/2036
Gateway Capital Statutory Trust IV	25,000,000	774,000	1.55%	3.95%	7/30/2037
Total	\$ 145,500,000	\$ 4,504,000			

(1) The total of the trust preferred capital securities and investments in the respective trusts represents the principal asset of the Company's junior subordinated debt securities with like maturities and like interest rates to the capital securities. The Company's investment in the trusts is reported in "Other Assets" on the Company's Consolidated Balance Sheets.

(2) Rate as of September 30, 2018.

During the fourth quarter of 2016, the Company issued \$150.0 million of fixed-to-floating rate subordinated notes with an initial fixed interest rate of 5.00% through December 15, 2021. The interest rate then changes to a floating rate of LIBOR plus 3.175% through its maturity date on December 15, 2026. In connection with the acquisition of Xenith on January 1, 2018, the Company acquired \$8.5 million of subordinated notes with a fair value premium of \$259,000, which was \$180,000 at September 30, 2018. The acquired subordinated notes have a fixed interest rate of 6.75% and a maturity date of June 30, 2025. At September 30, 2018 and December 31, 2017, the contractual principal reported for subordinated notes was \$158.5 million and \$150.0 million, respectively; remaining issuance discount as of September 30, 2018 and December 31, 2017 is \$1.6 million and \$1.8 million, respectively. The subordinated notes qualify as Tier 2 capital for the Company for regulatory purposes. The Company has certain restrictive covenants related to certain asset quality, capital, and profitability metrics associated with the acquired subordinated notes and is considered to be in compliance with these covenants as of September 30, 2018.

On August 23, 2012, the Company modified its fixed rate FHLB advances to floating rate advances, which resulted in reducing the Company's FHLB borrowing costs. In connection with this modification, the Company incurred a prepayment penalty of \$19.6 million on the original advances, which is included as a component of long-term borrowings on the Company's Consolidated Balance Sheet. In accordance with ASC 470-50, *Modifications and Extinguishments*, the Company is amortizing this prepayment penalty over the term of the modified advances using the effective rate method. The amortization expense is included as a component of interest expense on long-term borrowings on the Company's Consolidated Statements of Income. Amortization expense for the three and nine months ended September 30, 2018 and 2017 was \$498,000 and \$1,469,000 and \$486,000 and \$1,433,000, respectively.

As of September 30, 2018, the Company had long-term advances from the FHLB consisting of the following (dollars in thousands):

Long-term Type	Spread to 3-Month LIBOR	Interest Rate ⁽¹⁾	Maturity Date	Advance Amount
Adjustable Rate Credit	0.44%	2.84%	8/23/2022	\$ 55,000
Adjustable Rate Credit	0.45%	2.85%	11/23/2022	65,000
Adjustable Rate Credit	0.45%	2.85%	11/23/2022	10,000
Adjustable Rate Credit	0.45%	2.85%	11/23/2022	10,000
Fixed Rate Hybrid	—	0.99%	10/19/2018	30,000
Fixed Rate Hybrid	—	2.37%	10/10/2019	25,000
Fixed Rate Hybrid	—	1.58%	5/18/2020	20,000
				<u>\$ 215,000</u>

(1) Interest rates calculated using non-rounded numbers.

As of December 31, 2017, the Company had long-term advances from the FHLB consisting of the following (dollars in thousands):

Long-term Type	Spread to 3-Month LIBOR	Interest Rate ⁽¹⁾	Maturity Date	Advance Amount
Adjustable Rate Credit	0.44%	2.13%	8/23/2022	\$ 55,000
Adjustable Rate Credit	0.45%	2.15%	11/23/2022	65,000
Adjustable Rate Credit	0.45%	2.15%	11/23/2022	10,000
Adjustable Rate Credit	0.45%	2.15%	11/23/2022	10,000
Fixed Rate	—	3.75%	7/30/2018	5,000
Fixed Rate	—	3.97%	7/30/2018	5,000
Fixed Rate Hybrid	—	0.99%	10/19/2018	30,000
Fixed Rate Hybrid	—	1.58%	5/18/2020	20,000
				<u>\$ 200,000</u>

(1) Interest rates calculated using non-rounded numbers.

For information on the carrying value of loans and securities pledged as collateral on FHLB advances as of September 30, 2018 and December 31, 2017, refer to Note 7 "Commitments and Contingencies."

As of September 30, 2018, the contractual maturities of long-term debt are as follows for the years ending (dollars in thousands):

	Trust Preferred Capital Notes	Subordinated Debt	FHLB Advances	Fair Value Premium (Discount) ⁽¹⁾	Prepayment Penalty	Total Long- term Borrowings
For the remaining three months of 2018	\$ —	\$ —	\$ 30,000	\$ (212)	\$ (501)	\$ 29,287
2019	—	—	25,000	(862)	(2,018)	22,120
2020	—	—	20,000	(936)	(2,074)	16,990
2021	—	—	—	(1,006)	(2,119)	(3,125)
2022	—	—	140,000	(1,029)	(1,707)	137,264
Thereafter	150,004	158,500	—	(13,272)	—	295,232
Total long-term borrowings	<u>\$ 150,004</u>	<u>\$ 158,500</u>	<u>\$ 215,000</u>	<u>\$ (17,317)</u>	<u>\$ (8,419)</u>	<u>\$ 497,768</u>

(1) Includes discount on issued subordinated notes.

7. COMMITMENTS AND CONTINGENCIES

Litigation Matters

In the ordinary course of its operations, the Company and its subsidiaries are parties to various legal proceedings. Based on the information presently available, and after consultation with legal counsel, management believes that the ultimate outcome in such proceedings, in the aggregate, will not have a material adverse effect on the business, financial condition, or results of operations of the Company.

Financial Instruments with Off-Balance Sheet Risk

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve elements of credit and interest rate risk in excess of the amount recognized on the Company's Consolidated Balance Sheet. The contractual amounts of these instruments reflect the extent of the Company's involvement in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instruments for commitments to extend credit and letters of credit written is represented by the contractual amount of these instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments. Unless noted otherwise, the Company does not require collateral or other security to support off-balance sheet financial instruments with credit risk. The Company considers credit losses related to off-balance sheet commitments by undergoing a similar process in evaluating losses for loans that are carried on the balance sheet. The Company considers historical loss rates, current economic conditions, risk ratings, and past due status among other factors in the consideration of whether credit losses are inherent in the Company's off-balance sheet commitments to extend credit. The Company also records an indemnification reserve that includes balances relating to mortgage loans previously sold based on historical statistics and loss rates. As of September 30, 2018 and December 31, 2017, the Company's reserves for off-balance sheet credit risk and indemnification were \$1.5 million and \$795,000, respectively.

Commitments to extend credit are agreements to lend to customers as long as there are no violations of any conditions established in the contracts. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Because many of the commitments may expire without being completely drawn upon, the total commitment amounts do not necessarily represent future cash requirements.

Letters of credit are conditional commitments issued by the Company to guarantee the performance of customers to third parties. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers.

The following table presents the balances of commitments and contingencies (dollars in thousands):

	September 30, 2018	December 31, 2017
Commitments with off-balance sheet risk:		
Commitments to extend credit ⁽¹⁾	\$ 3,021,820	\$ 2,192,812
Standby letters of credit	174,714	127,435
Total commitments with off-balance sheet risk	<u>\$ 3,196,534</u>	<u>\$ 2,320,247</u>

(1) Includes unfunded overdraft protection.

The Company must maintain a reserve against its deposits in accordance with Regulation D of the Federal Reserve Act. For the final weekly reporting period in the period ended September 30, 2018, the aggregate amount of daily average required reserves was approximately \$40.5 million and was satisfied by deposits maintained with the Federal Reserve Bank.

As of September 30, 2018, the Company had approximately \$26.9 million in deposits in other financial institutions, of which \$13.4 million served as collateral for cash flow and loan swap derivatives. The Company had approximately \$11.7 million in deposits in other financial institutions that were uninsured at September 30, 2018. At least annually, the Company's management evaluates the loss risk of its uninsured deposits in financial counterparties.

For asset/liability management purposes, the Company uses interest rate swap agreements to hedge various exposures or to modify the interest rate characteristics of various balance sheet accounts. Refer to Note 8 “Derivatives” for additional information.

As part of the Company's liquidity management strategy, it pledges collateral to secure various financing and other activities that occur during the normal course of business. The following tables present the types of collateral pledged, at September 30, 2018 and December 31, 2017 (dollars in thousands):

Pledged Assets as of September 30, 2018

	Cash	AFS Securities (1)	HTM Securities (1)	Loans (2)	Total
Public deposits	\$ —	\$ 414,740	\$ 7,367	\$ —	\$ 422,107

(1) Balance represents market value.

(2) Balance represents book value.

8. DERIVATIVES

The Company is exposed to economic risks arising from its business operations and uses derivatives primarily to manage risk associated with changing interest rates, and to assist customers with their risk management objectives. The Company designates certain derivatives as hedging instruments in a qualifying hedge accounting relationship (cash flow or fair value hedge). The remaining are classified as free-standing derivatives consisting of customer accommodation loan swaps and interest rate lock commitments that do not qualify for hedge accounting.

In connection with the Shore Premier sale, the Company received 1,250,000 shares of the purchasing company's common stock with a contractual amount of \$28.9 million, the fair value of which was \$27.4 million at September 30, 2018. The purchasing company has agreed for a period of 30 days to pay additional cash consideration to the Company to the extent any sales of its common stock by the Company, following satisfaction of any required holding periods or other requirements under the Securities Act, are at prices lower than the agreed upon value at the time of entry into the agreement. The fair value of the related derivative at September 30, 2018 was approximately \$1.5 million. Refer to Note 1 "Accounting Policies" and Note 3 "Securities" for further discussion on the Shore Premier sale.

Cash Flow Hedges

The Company designates derivatives as cash flow hedges when they are used to manage exposure to variability in cash flows related to forecasted transactions on variable rate borrowings, such as trust preferred capital notes, FHLB borrowings, and prime commercial loans. During the normal course of business, the Company enters into interest rate swap agreements ("swap agreements") as part of its hedging strategy by exchanging a notional amount, equal to the principal amount of the borrowings, for fixed-rate interest based on benchmarked interest rates. The original terms and conditions of the interest rate swaps vary and range in length with a maximum hedging time through November 2022. Amounts receivable or payable are recognized as accrued under the terms of the agreements.

All swap agreements entered into with counterparties as of September 30, 2018 met the Company's credit standards, and these agreements contain collateral provisions protecting the at-risk party. The Company believes that the credit risk inherent in these agreements is not significant.

The Company assesses the effectiveness of each hedging relationship on a periodic basis using statistical regression analysis. The Company also measures the ineffectiveness of each hedging relationship using the change in variable cash flows method which compares the cumulative changes in cash flows of the hedging instrument relative to cumulative changes in the hedged item's cash flows. In accordance with ASC 815, *Derivatives and Hedging*, the effective portions of the derivatives' unrealized gains or losses are recorded as a component of other comprehensive income on the Company's Consolidated Statements of Income. Based on the Company's assessment, its cash flow hedges are highly effective, but to the extent that any ineffectiveness exists in the hedge relationships, the amounts would be recorded in interest income or interest expense on the Company's Consolidated Statements of Income.

On June 13, 2016, the Company terminated three interest rate swap agreements designated as cash flow hedges prior to their respective maturity dates. The unrealized gain of \$1.3 million within accumulated other comprehensive income will be reclassified into earnings over a three year period, the term of the hedged item, using the effective interest method. The estimated net amount of gains expected to be reclassified into earnings by September 30, 2019 is \$399,000.

Fair Value Hedge

The Company designates derivatives as fair value hedges when they are used to manage exposure to changes in the fair value of certain financial assets and liabilities, referred to as the hedged items, which fluctuate in value as a result of movements in interest rates. During the normal course of business, the Company enters into swap agreements to convert certain long-term fixed-rate loans to floating rates to hedge the Company's exposure to interest rate risk. The Company pays a fixed interest rate to the counterparty and receives a floating rate from the same counterparty calculated on the aggregate notional amount. At September 30, 2018 and December 31, 2017, the aggregate notional amount of the related hedged items totaled \$88.7 million and \$81.0 million, respectively, and the fair value of the related hedged items was an unrealized loss of \$3.5 million and \$1.2 million, respectively.

The Company applies hedge accounting in accordance with authoritative guidance, and the fair value hedge and the underlying hedged item, attributable to the risk being hedged, are recorded at fair value with unrealized gains and losses being recorded on the Company's Consolidated Statements of Income. Statistical regression analysis is used to assess hedge effectiveness, both at inception of the hedging relationship and on an ongoing basis. The regression analysis involves regressing the periodic change in fair value of the hedging instrument against the periodic changes in fair value of the asset being hedged due to changes in the

hedged risk. The Company's fair value hedges continue to be highly effective and had no material impact on the Company's Consolidated Statements of Income, but if any ineffectiveness exists in the hedge relationships, portions of the unrealized gains or losses would be recorded in interest income or interest expense on the Company's Consolidated Statements of Income.

Loan Swaps

During the normal course of business, the Company enters into interest rate swap loan relationships ("loan swaps") with borrowers to meet their financing needs. Upon entering into the loan swaps, the Company enters into offsetting positions with a third party in order to minimize interest rate risk. These back-to-back loan swaps qualify as financial derivatives with fair values as reported in "Other Assets" and "Other Liabilities" on the Company's Consolidated Balance Sheet.

Interest Rate Lock Commitments

During the normal course of business, the Company enters into commitments to originate mortgage loans whereby the interest rate on the loan is determined prior to funding ("rate lock commitments"). Rate lock commitments on mortgage loans that are intended to be sold in the secondary market are considered to be derivatives. The period of time between issuance of a loan commitment, closing, and sale of the loan generally ranges from 30 to 120 days. The Company protects itself from changes in interest rates through the use of best efforts forward delivery commitments, whereby the Company commits to sell a loan at the time the borrower commits to an interest rate with the intent that the buyer has assumed interest rate risk on the loan. The correlation between the rate lock commitments and the best efforts contracts is high due to their similarity.

The market values of rate lock commitments and best efforts forward delivery commitments is not readily ascertainable with precision because rate lock commitments and best efforts contracts are not actively traded in stand-alone markets. The Company determines the fair value of rate lock commitments and best efforts contracts by measuring the change in the value of the underlying asset, while taking into consideration the probability that the rate lock commitments will close. The fair value of the rate lock commitments is reported as a component of "Other Assets" on the Company's Consolidated Balance Sheet; the fair value of the Company's best efforts forward delivery commitments is recorded as a component of "Other Liabilities" on the Company's Consolidated Balance Sheet. Any impact to income is recorded in current period earnings as a component of "Mortgage banking income, net" on the Company's Consolidated Statements of Income.

The following table summarizes key elements of the Company's derivative instruments as of September 30, 2018 and December 31, 2017, segregated by derivatives that are considered accounting hedges and those that are not (dollars in thousands):

	September 30, 2018			December 31, 2017		
	Notional or Contractual Amount ⁽¹⁾	Derivative ⁽²⁾		Notional or Contractual Amount ⁽¹⁾	Derivative ⁽²⁾	
		Assets	Liabilities		Assets	Liabilities
Derivatives designated as accounting hedges:						
Interest rate contracts:						
Cash flow hedges	\$ 152,500	\$ —	\$ 2,526	\$ 152,500	\$ 49	\$ 8,005
Fair value hedges	88,668	3,468	—	80,973	1,598	76
Derivatives not designated as accounting hedges:						
Loan Swaps						
Pay fixed - receive floating interest rate swaps	766,506	22,824	1,119	529,736	—	1,350
Pay floating - receive fixed interest rate swaps	766,506	1,119	22,824	529,736	1,350	—
Other contracts:						
Interest rate lock commitments	—	—	—	34,314	559	—
Best efforts forward delivery commitments	—	—	—	73,777	12	—

(1) Notional amounts are not recorded on the Company's Consolidated Balance Sheet and are generally used only as a basis on which interest and other payments are determined.

(2) Balances represent fair value of derivative financial instruments.

Refer to Note 7 "Commitments and Contingencies" for information regarding collateral pledged on derivative instruments.

9. STOCKHOLDERS' EQUITY

Serial Preferred Stock

The Company has the authority to issue up to 500,000 shares of serial preferred stock with a par value of \$10.00 per share. As of September 30, 2018 and December 31, 2017, the Company had no shares issued or outstanding.

Accumulated Other Comprehensive Income (Loss)

The change in AOCI for the three and nine months ended September 30, 2018 is summarized as follows, net of tax (dollars in thousands):

	Unrealized Gains (Losses) on AFS Securities	Unrealized Gain for AFS Securities Transferred to HTM	Change in Fair Value of Cash Flow Hedge	Unrealized Gains (Losses) on BOLI	Total
Balance - June 30, 2018	\$ (10,813)	\$ 105	\$ (2,273)	\$ (1,064)	\$ (14,045)

Balance - September 30, 2018	\$ (22,200)	\$ 100	\$ (1,471)	\$ (1,045)	\$ (24,616)

(1) During the second quarter of 2018, the Company adopted ASU No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities". As part of this adoption, the Company made a one-time election to transfer eligible HTM securities to the AFS category. The transfer of these securities resulted in an increase of approximately \$400,000 to AOCI and is included as unrealized gains (losses) on AFS securities above.

(2) During the second quarter of 2018, the Company adopted ASU No. 2018-02 "Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income." As part of this adoption, the Company reclassified approximately \$107,000, which resulted in a reclassification of these amounts from AOCI to retained earnings.

The change in AOCI for the three and nine months ended September 30, 2017 is summarized as follows, net of tax (dollars in thousands):

	Unrealized Gains (Losses) on AFS Securities	Unrealized Gain for AFS Securities Transferred to HTM	Change in Fair Value of Cash Flow Hedge	Unrealized Gains (Losses) on BOLI	Total
Balance - June 30, 2017	\$ 7,733	\$ 3,033	\$ (5,487)	\$ (1,271)	\$ 4,008

Balance - September 30, 2017	\$ 4,885	\$ 2,870	\$ (5,257)	\$ (1,187)	\$ 1,311

10. FAIR VALUE MEASUREMENTS

The Company follows ASC 820, *Fair Value Measurements and Disclosures*, to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. ASC 820 clarifies that fair value of certain assets and liabilities is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants.

ASC 820 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. The three levels of the fair value hierarchy under ASC 820 based on these two types of inputs are as follows:

- Level 1 Valuation is based on quoted prices in active markets for identical assets and liabilities.
- Level 2 Valuation is based on observable inputs including quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets and liabilities in less active markets, and model-based valuation techniques for which significant assumptions can be derived primarily from or corroborated by observable data in the markets.
- Level 3 Valuation is based on model-based techniques that use one or more significant inputs or assumptions that are unobservable in the market. These unobservable inputs reflect the Company's assumptions about what market participants would use and information that is reasonably available under the circumstances without undue cost and effort.

The following describes the valuation techniques used by the Company to measure certain financial assets and liabilities recorded at fair value on a recurring basis in the financial statements.

Derivative instruments

As discussed in Note 8 "Derivatives", the Company records derivative instruments at fair value on a recurring basis. The Company utilizes derivative instruments as part of the management of interest rate risk to modify the re-pricing characteristics of certain portions of the Company's interest-bearing assets and liabilities. The Company has contracted with a third party vendor to provide valuations for derivatives using standard valuation techniques and therefore classifies such valuations as Level 2. Third party valuations are validated by the Company using Bloomberg Valuation Service's derivative pricing functions. No material differences were identified during the validation as of September 30, 2018 and December 31, 2017. The Company has considered counterparty credit risk in the valuation of its derivative assets and has considered its own credit risk in the valuation of its derivative liabilities.

In the second quarter of 2018, the Bank announced that it had entered into an agreement with a third party mortgage company to allow TFSB to offer residential mortgages from certain Bank locations on the terms and conditions set forth in the agreement. Concurrently with this arrangement, the Bank began the process of winding down the operations of UMG, the Company's reportable mortgage segment. Prior to this announcement, during the normal course of business, the Company entered into interest rate lock commitments related to the origination of mortgage loans held for sale, as well as best effort forward delivery commitments to mitigate interest rate risk; these instruments were recorded at estimated fair value based on the value of the underlying loan, which in turn was based on quoted prices for similar loans in the secondary market. This value, however, was adjusted by a pull-through rate, which considered the likelihood that the loan in a lock position would ultimately close. The pull-through rate was derived from the Company's internal data and was adjusted using significant management judgment. The pull-through rate was largely dependent on the loan processing stage that a loan was currently in and the change in prevailing interest rates from the time of the rate lock. As such, interest rate lock commitments are classified as Level 3. An increase in the pull-through rate utilized in the fair value measurement of the interest rate lock commitment derivative resulted in positive fair value adjustments, while a decrease in the pull-through rate resulted in a negative fair value adjustment. As a result of the UMG wind down, at September 30, 2018, the Company had no interest rate locks with a weighted average pull-through rate, and a weighted average pull-through rate of approximately 80% as of December 31, 2017. The interest rate lock commitments are recorded as a component of "Other Assets" on the Company's Consolidated Balance Sheet.

AFS Securities

AFS securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are derived primarily from or corroborated by

observable market data (Level 2). If the inputs used to provide the evaluation for certain securities are unobservable and/or there is little, if any, market activity, then the security would fall to the lowest level of the hierarchy (Level 3).

The Company's investment portfolio is primarily valued using fair value measurements that are considered to be Level 2. The Company has contracted with a third party portfolio accounting service vendor for valuation of its securities portfolio. The vendor's primary source for security valuation is IDC, which evaluates securities based on market data. IDC utilizes evaluated pricing models that vary by asset class and include available trade, bid, and other market information. Generally, the methodology includes broker quotes, proprietary models, vast descriptive terms and conditions databases, as well as extensive quality control programs.

The vendor utilizes proprietary valuation matrices for valuing all municipals securities. The initial curves for determining the price, movement, and yield relationships within the municipal matrices are derived from industry benchmark curves or sourced from a municipal trading desk. The securities are further broken down according to issuer, credit support, state of issuance, and rating to incorporate additional spreads to the industry benchmark curves.

The Company primarily uses Bloomberg Valuation Service, an independent information source that draws on quantitative models and market data contributed from over 4,000 market participants, to validate third party valuations. Any material differences between valuation sources are researched by further analyzing the various inputs that are utilized by each pricing source. No material differences were identified during the validation as of September 30, 2018 and December 31, 2017.

The carrying value of restricted Federal Reserve Bank and FHLB stock approximates fair value based on the redemption provisions of each entity and is therefore excluded from the following table.

Marketable Equity Securities

Marketable securities are carried at fair value. Fair value is based on the reported market price of the publicly traded stock (Level 1).

Loans Held for Sale

Loans held for sale are carried at fair value. These loans currently consist of residential loans originated for sale in the secondary market. Fair value is based on the price secondary markets are currently offering for similar loans using observable market data which is not materially different than cost due to the short duration between origination and sale (Level 2). At September 30, 2018, loans held for sale are included in "Assets of discontinued operations" on the Company's Consolidated Balance Sheets. Refer to Note 13 "Segment Reporting & Discontinued Operations" for further discussion regarding discontinued operations.

The following table presents the balances of financial assets and liabilities measured at fair value on a recurring basis at September 30, 2018 and December 31, 2017 (dollars in thousands):

Certain assets are measured at fair value on a nonrecurring basis in accordance with U.S. GAAP. Adjustments to the fair value of these assets usually result from the application of lower-of-cost-or-market accounting or write-downs of individual assets.

The following describes the valuation techniques used by the Company to measure certain assets recorded at fair value on a nonrecurring basis in the financial statements.

Impaired loans

Loans are designated as impaired when, in the judgment of management based on current information and events, it is probable that all amounts due according to the contractual terms of the loan agreements will not be collected. The measurement of loss associated with impaired loans can be based on either the observable market price of the loan or the fair value of the collateral. Collateral dependent loans are reported at the fair value of the underlying collateral if repayment is solely from the underlying value of the collateral. Collateral may be in the form of real estate or business assets including equipment, inventory, and accounts receivable. The vast majority of the Company's collateral is real estate. The value of real estate collateral is determined utilizing an income or market valuation approach based on an appraisal conducted by an independent, licensed appraiser using observable market data. When evaluating the fair value, management may discount the appraisal further if, based on their understanding of the market conditions, it is determined the collateral is further impaired below the appraised value (Level 3). At September 30, 2018 and December 31, 2017, the Level 3 weighted average adjustments related to impaired loans were 3.2% and 3.0%, respectively. The value of business equipment is based upon an outside appraisal, of one year or less, if deemed significant, or the net book value on the applicable business's financial statements if not considered significant using observable market data. Likewise, values for inventory and accounts receivables collateral are based on financial statement balances or aging reports (Level 3). Collateral dependent impaired loans allocated to the ALL are measured at fair value on a nonrecurring basis. Any fair value adjustments are recorded in the period incurred as provision for loan losses on the Company's Consolidated Statements of Income.

Foreclosed Properties & Former Bank Premises

Foreclosed properties and former bank premises are evaluated for impairment at least quarterly by the Bank's Special Asset Loan Committee and any necessary write downs to fair values are recorded as impairment and included as a component of noninterest expense. Fair values of foreclosed properties and former bank premises are carried at fair value less selling costs. Fair value is based upon independent market prices, appraised values of the collateral, or management's estimation of the value of the collateral. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the foreclosed asset as Level 3 valuation. At September 30, 2018 and December 31, 2017, the Level 3 weighted average adjustments related to foreclosed property were approximately 3.6% and 22.5%, respectively. At September 30, 2018 and December 31, 2017, there were no Level 3 weighted average adjustments related to bank premises.

Total valuation expenses related to foreclosed properties for the three months ended September 30, 2018 and 2017 totaled \$42,000 and \$249,000, respectively. Total valuation expenses related to foreclosed properties for the nine months ended September 30, 2018 and 2017 totaled \$1.2 million and \$506,000 respectively.

Total valuation expenses related to former bank premises for the three and nine months ended September 30, 2018 was \$0 and for the three and nine months ended September 30, 2017 was \$339,000.

The following tables summarize the Company's financial assets that were measured at fair value on a nonrecurring basis at September 30, 2018 and December 31, 2017 (dollars in thousands):

	Fair Value Measurements at September 30, 2018 using			
	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs	Balance
	Level 1	Level 2	Level 3

Fair Value Measurements at December 31, 2017 using

	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs	Balance
	Level 1	Level 2	Level 3	
ASSETS				
Impaired loans	\$ —	\$ —	\$ 3,229	\$ 3,229
Foreclosed properties	—	—	5,253	5,253
Former bank premises	—	—	1,383	1,383

ASC 825, *Financial Instruments*, requires disclosure about fair value of financial instruments for interim periods and excludes certain financial instruments and all non-financial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company.

Cash and Cash Equivalents

For those short-term instruments, the carrying amount is a reasonable estimate of fair value.

HTM Securities

The Company's investment portfolio is primarily valued using fair value measurements that are considered to be Level 2. The Company has contracted with a third party portfolio accounting service vendor for valuation of its securities portfolio. The vendor's primary source for security valuation is IDC, which evaluates securities based on market data. IDC utilizes evaluated pricing models that vary by asset class and include available trade, bid, and other market information. Generally, the methodology includes broker quotes, proprietary models, vast descriptive terms and conditions databases, as well as extensive quality control programs.

The vendor utilizes proprietary valuation matrices for valuing all municipals securities. The initial curves for determining the price, movement, and yield relationships within the municipal matrices are derived from industry benchmark curves or sourced from a municipal trading desk. The securities are further broken down according to issuer, credit support, state of issuance, and rating to incorporate additional spreads to the industry benchmark curves.

The Company primarily uses Bloomberg Valuation Service, an independent information source that draws on quantitative models and market data contributed from over 4,000 market participants, to validate third party valuations. Any material differences between valuation sources are researched by further analyzing the various inputs that are utilized by each pricing source. No material differences were identified during the validation as of September 30, 2018 and December 31, 2017.

Loans

With the adoption of ASU No. 2016-01 during the first quarter of 2018, the fair value of loans at September 30, 2018 were estimated using an exit price, representing the amount that would be expected to be received if the Company sold the loans. At December 31, 2017, the fair value of performing loans were estimated by discounting expected future cash flows using a yield curve that is constructed by adding a loan spread to a market yield curve. Loan spreads are based on spreads currently observed in the market for loans of similar type and structure. Fair value for impaired loans and their respective level within the fair value hierarchy are described in the previous disclosure related to fair value measurements of assets that are measured on a nonrecurring basis.

BOLI

The carrying value of BOLI approximates fair value. The Company records these policies at their cash surrender value, which is estimated using information provided by insurance carriers.

Deposits

The fair value of demand deposits, savings accounts, and certain money market deposits is the amount payable on demand at the reporting date. With the adoption of ASU No. 2016-01 during the first quarter of 2018, the fair value of certificates of deposits at September 30, 2018 were valued using a discounted cash flow calculation that includes a market rate analysis of the current rates offered by market participants for certificates of deposits that mature in the same period. At December 31, 2017, the fair value of certificates of deposit was estimated by discounting the future cash flows using the rates currently offered for deposits of similar remaining maturities.

Borrowings

The carrying value of the Company's repurchase agreements is a reasonable estimate of fair value. With the adoption of ASU No. 2016-01 during the first quarter of 2018, subordinated debt and trust preferred cash flows at September 30, 2018 are forecasted at the stated coupon rate and discounted back to the measurement date using the prevailing market rate. The prevailing market rate is based on implied market yields for recently issued debt with similar durations by institutions of similar size. Other borrowings, including subordinated debt and trust preferred at December 31, 2017 are discounted using the current yield curve for the same type of borrowing. For borrowings with embedded optionality, a third party source is used to value the instrument.

Accrued Interest

The carrying amounts of accrued interest approximate fair value.

The carrying values and estimated fair values of the Company's financial instruments at September 30, 2018 and December 31, 2017 are as follows (dollars in thousands):

	Carrying Value	Fair Value Measurements at September 30, 2018 using

The Company assumes interest rate risk (the risk that general interest rate levels will change) as a result of its normal operations. As a result, the fair values of the Company's financial instruments will change when interest rate levels change and that change may be either favorable or unfavorable to the Company. Management attempts to match maturities of assets and liabilities to the extent believed necessary to minimize interest rate risk. Borrowers with fixed rate obligations, however, are less likely to prepay in a rising rate environment and more likely to prepay in a falling rate environment. Conversely, depositors who are receiving fixed rates are more likely to withdraw funds before maturity in a rising rate environment and less likely to do so in a falling rate environment. Management monitors rates and maturities of assets and liabilities and attempts to minimize interest rate risk by adjusting terms of new loans and deposits and by investing in securities with terms that mitigate the Company's overall interest rate risk.

11. REVENUE

On January 1, 2018, the Company adopted ASU No. 2014-09, "Revenue from Contracts with Customers: Topic 606", and all subsequent amendments to the ASU No. 2014-09. Using Topic 606 guidelines and other authoritative guidance, the Company concluded that Topic 606 applies to noninterest income excluding out of scope revenue such as mortgage banking income, gains on securities transactions, and trading revenue (i.e., derivatives).

Public entities are required to disclose (1) revenue disaggregated into categories that show how the nature, amount, timing, and uncertainty of revenue and cash flows are affected by economic factors; (2) contract balances; (3) a description of when performance obligations are satisfied; and (4) significant judgments made in evaluating when a customer obtains control of promised goods or services for performance obligations satisfied at a point in time.

The majority of the Company's noninterest income comes from short term contracts associated with fees for services provided on deposit accounts, credit cards, and wealth management accounts and is being accounted for in accordance with Topic 606. Typically the duration of a contract does not extend beyond the services performed; therefore the Company concluded that discussion regarding contract balances is immaterial. Additionally, due to the short duration of most customer contracts the revenue from which constitutes noninterest income, the

Company will not need to make many judgments that would affect the amount and timing of revenue.

The Company's performance obligations on revenue from interchange fees and deposit accounts are generally satisfied immediately, when the transaction occurs or by month-end. Performance obligations on revenue from fiduciary and asset management fees are generally satisfied monthly or quarterly. For a majority of fee income on deposit accounts the Company is a principal controlling the promised good or service before transferring it to the customer. However, for income related to most wealth management income, the Company is an agent responsible for arranging for the provision of goods and services by another party.

Noninterest income disaggregated by major source, for the three and nine months ended September 30, 2018 and 2017, consisted of the following (dollars in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Noninterest income:				
Deposit Service Charges ⁽¹⁾ :				
Overdraft fees, net	\$ 5,345	\$ 4,067	\$ 15,338	\$ 11,643

Total noninterest income ⁽⁴⁾	\$ 19,887	\$ 15,230	\$ 80,752	\$ 47,305

(1) Income within scope of Topic 606.

(2) Includes income within the scope of Topic 606 of \$946,000 and \$648,000 for the three months ended September 30, 2018 and 2017, respectively, and \$2.5 million and \$1.7 million for the nine months ended September 30, 2018 and 2017, respectively. The remaining balance is outside the scope of Topic 606.

(3) The initial estimated pre-tax gain recorded in the second quarter of 2018 for the Shore Premier sale was subsequently adjusted down in the third quarter by \$933,000 due to updated information and wind-down costs incurred.

(4) Noninterest income for the discontinued mortgage segment is reported in Note 13, "Segment Reporting & Discontinued Operations."

12. EARNINGS PER SHARE

Basic EPS is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted EPS is computed using the weighted average number of common shares outstanding during the period, including the effect of dilutive potential common shares outstanding attributable to stock awards and warrants.

The following table presents EPS from continuing operations, discontinued operations and total net income available to common shareholders for the three and nine months ended September 30, 2018 and 2017 (dollars in thousands except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Net Income:				
Income from continuing operations	\$ 38,762	\$ 20,420	\$ 105,136	\$ 57,084
Income (loss) from discontinued operations	(565)	238	(2,973)	653

	\$ 65,975	\$ 43,707	\$ 65,818	\$ 43,685
Dilutive effect of stock awards and warrants	38	85	55	83
Weighted average shares outstanding, diluted	\$ 66,013	\$ 43,792	\$ 65,873	\$ 43,768
Basic EPS:				
EPS from continuing operations	\$ 0.59	\$ 0.46	\$ 1.60	\$ 1.31
EPS from discontinued operations	(0.01)	0.01	(0.05)	0.01
EPS available to common shareholders	\$ 0.58	\$ 0.47	\$ 1.55	\$ 1.32
Diluted EPS:				
EPS from continuing operations	\$ 0.59	\$ 0.46	\$ 1.60	\$ 1.31
EPS from discontinued operations	(0.01)	0.01	(0.05)	0.01
EPS available to common shareholders	\$ 0.58	\$ 0.47	\$ 1.55	\$ 1.32

13. SEGMENT REPORTING & DISCONTINUED OPERATIONS

On May 23, 2018, the Bank announced that it had entered into an agreement with a third party mortgage company TFSB to allow TFSB to offer residential mortgages from certain Bank locations on the terms and conditions set forth in the agreement. Concurrently with this arrangement, the Bank began the process of winding down the operations of UMG, the Company's reportable mortgage segment. Effective at the close of business June 1, 2018, UMG was no longer originating mortgages in its name. The decision to exit the mortgage business was based on a number of strategic priorities and other factors, including the additional investment in the business required to achieve the necessary scale to be competitive. As a result of this decision, the community bank segment is the only remaining reportable segment and does not require separate reporting disclosures.

As of September 30, 2018, assets from discontinued operations totaled \$2.1 million, which included \$360,000 of loans held for sale, and were reported in assets from discontinued operations on the Company's Consolidated Balance Sheet. The Company also reported \$2.6 million as liabilities of discontinued operations on the Company's Consolidated Balance Sheet. Management believes there are no material on-going obligations with respect to the mortgage banking business that have not been recorded in the Company's consolidated financial statements.

The following table presents summarized operating results of the discontinued mortgage segment for the three and nine months ended September 30, 2018 and 2017, respectively (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Net interest income	\$ 207	\$ 351	\$ 850	\$ 847
Provision for credit losses	83	(6)	(181)	1
Net interest income after provision for credit losses	124	357	1,031	846
Noninterest income	181	2,306	3,891	7,125
Noninterest expenses	1,066	2,292	8,690	6,950
Income before income taxes	(761)	371	(3,768)	1,021
Income tax expense (benefit)	(196)	133	(795)	368
Net income (loss) on discontinued operations	\$ (565)	\$ 238	\$ (2,973)	\$ 653

14. SUBSEQUENT EVENTS

On October 5, 2018, the Company announced it has entered into a definitive merger agreement to acquire Access in an all-stock transaction. Subject to the terms and conditions stated in the merger agreement, upon the consummation of the merger each share of Access common stock will be converted into the right to receive 0.75 shares of the Company's common stock. The transaction is expected to close in the first quarter of 2019.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of Union Bankshares Corporation

Results of Review of Interim Financial Statements

We have reviewed the accompanying consolidated balance sheet of Union Bankshares Corporation (the “Company”) as of September 30, 2018, the related consolidated statements of income and comprehensive income for the three and nine-month periods ended September 30, 2018 and 2017, the consolidated statements of changes in stockholders’ equity and cash flows for the nine-month periods ended September 30, 2018 and 2017, and the related notes (collectively referred to as the “consolidated interim financial statements”). Based on our reviews, we are not aware of any material modifications that should be made to the consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States)(PCAOB), the consolidated balance sheet of the Company as of December 31, 2017, the related consolidated statements of income, comprehensive income, changes in stockholders’ equity, and cash flows for the year then ended, and the related notes (not presented herein); and in our report dated February 27, 2018, we expressed an unqualified audit opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2017, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

These financial statements are the responsibility of the Company’s management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the SEC and the PCAOB. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

ITEM 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management’s discussion and analysis is presented to aid the reader in understanding and evaluating the financial condition and results of operations of the Company. This discussion and analysis should be read with the Company’s consolidated financial statements, the notes to the financial statements, and the other financial data included in this report, as well as the Company’s 2017 Form 10-K, including management’s discussion and analysis. Highlighted in the discussion are material changes from prior reporting periods and any identifiable trends affecting the Company. Results of operations for the interim periods are not necessarily indicative of results that may be expected for the full year or for any other period. Amounts are rounded for presentation purposes; however, some of the percentages presented are computed based on unrounded amounts.

FORWARD-LOOKING STATEMENTS

Certain statements in this report may constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, projections, predictions, expectations, or beliefs about future events or results that are not statements of historical fact. Such forward-looking statements are based on various assumptions as of the time they are made, and are inherently subject to known and unknown risks, uncertainties, and other factors that may cause actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Forward-looking statements are often accompanied by words that convey projected future events or outcomes such as “expect,” “believe,” “estimate,” “plan,” “project,” “anticipate,” “intend,” “will,” “may,” “view,” “opportunity,” “potential,” or words of similar meaning or other statements concerning opinions or judgment of the Company and its management about future events. Although the Company believes that its expectations with respect to forward-looking statements are based upon reasonable assumptions within the bounds of its existing knowledge of its business and operations, there can be no assurance that actual results, performance, or achievements of the Company will not differ materially from any projected future results, performance, or achievements expressed or implied by such forward-looking statements. Actual future results, performance or achievements may differ materially from historical results or those anticipated depending on a variety of factors, including, but not limited to:

- the possibility that any of the anticipated benefits of the acquisition of Xenith will not be realized or will not be realized within the expected time period, the expected revenue synergies and cost savings from the acquisition may not be fully realized or realized within the expected time frame, revenues following the acquisition may be lower than expected, or customer and employee relationships and business operations may be disrupted by the acquisition,
- changes in interest rates;
- general economic and financial market conditions, in the United States generally and particularly in the markets in which the Company operates and which its loans are concentrated, including the effects of declines in real estate values, an increase in unemployment levels and slowdowns in economic growth;
- the Company’s ability to manage its growth or implement its growth strategy;
- the ability to obtain regulatory, shareholder or other approvals or other conditions to closing the pending merger with Access on a timely basis or at all, the ability to close the pending merger with Access on the expected timeframe, or at all, that closing may be more difficult, time-consuming or costly than expected, and that if the pending merger with Access is consummated, the businesses of the Company and Access may not be integrated successfully or such integration may be more difficult, time-consuming or costly than expected;
- the Company’s ability to recruit and retain key employees;
- an insufficient allowance for loan losses;
- the quality or composition of the loan or investment portfolios;
- concentrations of loans secured by real estate, particularly commercial real estate;
- the effectiveness of the Company’s credit processes and management of the Company’s credit risk;
- demand for loan products and financial services in the Company’s market area;
- the Company’s ability to compete in the market for financial services;
- technological risks and developments, and cyber threats, attacks, or events;
- performance by the Company’s counterparties or vendors;
- deposit flows;
- the availability of financing and the terms thereof;
- the level of prepayments on loans and mortgage-backed securities;
- legislative or regulatory changes and requirements;
- the impact of the Tax Act, including, but not limited to, the effect of the lower corporate tax rate, including on the valuation of the Company’s tax assets and liabilities;
- any future refinements to the Company’s preliminary analysis of the impact of the Tax Act on the Company;

- changes in the effect of the Tax Act due to issuance of interpretive regulatory guidance or enactment of corrective or supplement legislation;
- monetary and fiscal policies of the U.S. government including policies of the U.S. Department of the Treasury and the Board of Governors of the Federal Reserve System;
- changes to applicable accounting principles and guidelines; and
- other factors, many of which are beyond the control of the Company.

Please refer to the “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operation” sections of the Company’s Annual Report on Form 10-K for the year ended December 31, 2017 and comparable “Risk Factors” section of this Quarterly Report on Form 10-Q for the quarter ended September 30, 2018 and related disclosures in other filings, which have been filed with the SEC and are available on the SEC’s website at www.sec.gov. The actual results or developments anticipated may not be realized or, even if substantially realized, they may not have the expected consequences to or effects on the Company or its businesses or operations. Readers are cautioned not to rely too heavily on the forward-looking statements contained in this Quarterly Report. Forward-looking statements speak only as of the date they are made and the Company does not undertake any obligation to update, revise, or clarify these forward-looking statements whether as a result of new information, future events or otherwise.

CRITICAL ACCOUNTING POLICIES

The accounting and reporting policies of the Company are in accordance with U.S. GAAP and conform to general practices within the banking industry. The Company’s financial position and results of operations are affected by management’s application of accounting policies, including estimates, assumptions, and judgments made to arrive at the carrying value of assets and liabilities and amounts reported for revenues, expenses, and related disclosures. Different assumptions in the application of these policies could result in material changes in the Company’s consolidated financial position and/or results of operations. The Company evaluates its critical accounting estimates and assumptions on an ongoing basis and updates them, as needed. Management has discussed the Company’s critical accounting policies and estimates with the Audit Committee of the Board of Directors of the Company.

The critical accounting and reporting policies include the Company’s accounting for the ALL, acquired loans, and goodwill and intangible assets. The Company’s accounting policies are fundamental to understanding the Company’s consolidated financial position and consolidated results of operations. Accordingly, the Company’s significant accounting policies are discussed in detail in Note 1 “Summary of Significant Accounting Policies” in the “Notes to the Consolidated Financial Statements” contained in Item 8 “Financial Statements and Supplementary Data” of the Company’s 2017 Form 10-K.

The Company provides additional information on its critical accounting policies and estimates listed above under “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies” in its 2017 Form 10-K.

ABOUT UNION BANKSHARES CORPORATION

Headquartered in Richmond, Virginia, Union Bankshares Corporation (Nasdaq: UBSH) is the holding company for Union Bank & Trust, which has 140 branches, seven of which are operated as Xenith Bank, a division of Union Bank & Trust of Richmond, Virginia, and approximately 190 ATMs located throughout Virginia and in portions of Maryland and North Carolina. Non-bank affiliates of the Company include: ODCM, DHFB, and OAL, which both provide investment advisory services, and Union Insurance Group, LLC, which offers various lines of insurance products.

Shares of the Company’s common stock are traded on the Nasdaq Global Select Market under the symbol “UBSH”. Additional information is available on the Company’s website at <http://investors.bankatunion.com>. The information contained on the Company’s website is not a part of or incorporated into this report.

RESULTS OF OPERATIONS

Executive Overview

On January 1, 2018, the Company completed the acquisition of Xenith, a bank holding company based in Richmond, Virginia. The Company’s three and nine month results for 2018 include the financial results of Xenith.

On April 1, 2018 the Bank completed its acquisition of DHFB, a Roanoke, Virginia based investment advisory firm. The financial results of DHFB are included in the Company's results starting in the second quarter of 2018.

On May 23, 2018, the Bank announced that it had entered into an agreement with a third party mortgage company TFSB, to allow TFSB to offer residential mortgages from certain Bank locations on the terms and conditions set forth in the agreement. Concurrently with this arrangement, the Bank began the process of winding down the operations of UMG, the Company's reportable mortgage segment. Effective at the close of business June 1, 2018, UMG was no longer originating mortgages in its name. In connection with this transaction, the Company recorded exit costs totaling approximately \$3.4 million in the second quarter of 2018 and \$199,000 in the third quarter of 2018, which includes goodwill impairment of approximately \$864,000. These costs and the Company's mortgage segment results are reported as discontinued operations.

On June 29, 2018, the Bank entered into an agreement to sell substantially all of the assets and certain specific liabilities of Shore Premier, consisting primarily of marine loans totaling \$383.9 million, for approximately \$375.0 million in cash and 1,250,000 shares of the purchasing company's common stock. The initial estimated after-tax gain recorded in the second quarter of 2018 was \$16.5 million, net of transaction and other related costs, which was subsequently reduced by \$737,000 in the third quarter based on updated information obtained and wind-down costs incurred.

On June 29, 2018, the Bank sold approximately \$206.3 million in consumer home improvement loans that had been originated through a third-party lending program. These loans were sold at par.

On July 1, 2018, ODCM, a subsidiary of the Bank, completed its acquisition of OAL, a McLean, Virginia based investment advisory firm. The Company's three and nine months ended September 30, 2018 financial results include the financial results of OAL.

The Company closed three branches during the second quarter of 2018 as part of the conversion activities related to its acquisition of Xenith. After further analyzing its branch footprint, the Company decided to consolidate an additional seven branches, approximately 5% of the Company's branch network, during the third quarter of 2018. This resulted in after-tax branch closure costs of approximately \$474,000 recorded in the second quarter of 2018 and an additional \$375,000 that were recorded in the third quarter of 2018.

The Company incurred approximately \$565,000 in after-tax costs related to executive management changes during the third quarter of 2018.

On October 5, 2018, the Company announced it entered into a definitive merger agreement to acquire Access in an all-stock transaction. Subject to the terms and conditions stated in the merger agreement, upon the consummation of the merger each share of Access common stock will be converted into the right to receive 0.75 shares of the Company's common stock. The transaction is expected to close in the first quarter of 2019. The Company's three and nine months ended September 30, 2018 financial results did not include the financial results of Access.

Third Quarter Net Income and Performance Metrics

- Net income was \$38.2 million and EPS was \$0.58 for the third quarter of 2018 compared to net income of \$20.7 million and EPS of \$0.47 for the third quarter of 2017.
- Net operating earnings⁽¹⁾, which excluded after-tax merger-related costs of \$1.1 million, were \$39.3 million and operating EPS⁽¹⁾ was \$0.60 for the third quarter of 2018 compared to \$21.3 million, or \$0.49, for the third quarter of 2017.
- ROA was 1.17% for the third quarter of 2018 compared to 0.91% for the third quarter of 2017; operating ROA⁽¹⁾ was 1.21% for the third quarter of 2018 compared to 0.94% for the third quarter of 2017.
- ROE was 8.06% for the third quarter of 2018 compared to 7.90% for the third quarter of 2017; operating ROE⁽¹⁾ was 8.30% for the third quarter of 2018 compared to 8.15% for the third quarter of 2017.
- ROTCE⁽¹⁾ was 13.73% for the third quarter of 2018 compared to 11.34% for the third quarter of 2017; operating ROTCE⁽¹⁾ was 14.14% for the third quarter of 2018 compared to 11.70% for the third quarter of 2017.

Nine Months Net Income and Performance Metrics

- Net income was \$102.2 million and EPS was \$1.55 for the nine months ended September 30, 2018 compared to net income of \$57.7 million and EPS of \$1.32 for the nine months ended September 30, 2017.
- Net operating earnings⁽¹⁾, which excluded after-tax merger-related costs of \$29.9 million, were \$132.1 million and operating EPS⁽¹⁾ was \$2.01 for the nine months ended September 30, 2018 compared to \$60.8 million, or \$1.39, for the nine months ended September 30, 2017.

- ROA was 1.05% for the nine months ended September 30, 2018 compared to 0.88% for the nine months ended September 30, 2017; operating ROA⁽¹⁾ was 1.35% for the nine months ended September 30, 2018 compared to 0.93% for the nine months ended September 30, 2017.
- ROE was 7.38% for the nine months ended September 30, 2018 compared to 7.53% for the nine months ended September 30, 2017; operating ROE⁽¹⁾ was 9.54% for the nine months ended September 30, 2018 compared to 7.93% for the nine months ended September 30, 2017.
- ROTCE⁽¹⁾ was 12.71% for the nine months ended September 30, 2018 compared to 10.90% for the nine months ended September 30, 2017; operating ROTCE⁽¹⁾ was 16.44% for the nine months ended September 30, 2018 compared to 11.47% for the nine months ended September 30, 2017.

Balance Sheet

- Loans held for investment, net of deferred fees and costs, were \$9.4 billion at September 30, 2018, an increase of \$2.3 billion, or 31.8%, from December 31, 2017. On a pro forma basis, including Xenith loans and adjusted for the sale of loans in the second quarter of 2018, loans held for investment grew \$379.0 million, or 5.6% (annualized), from January 1, 2018.
- Total deposits were \$9.8 billion at September 30, 2018, an increase of \$2.8 billion, or 40.7%, from December 31, 2017. On a pro forma basis, including Xenith deposits, deposits grew \$293.3 million, or 4.1% (annualized) from January 1, 2018.

(1) Refer to the “Non-GAAP Financial Measures” section within this Item 2 for more information about these non-GAAP financial measures, including a reconciliation of these measures to the most directly comparable financial measures in accordance with GAAP.

Net Interest Income

	For the Three Months Ended September 30,			Change
	2018	2017		
	(Dollars in thousands)			
Average interest-earning assets	\$ 11,383,320	\$ 8,167,919	\$ 3,215,401	
Interest and dividend income	\$ 131,363	\$ 84,499	\$ 46,864	
Interest and dividend income (FTE) ⁽¹⁾	\$ 133,377	\$ 87,498	\$ 45,879	
Yield on interest-earning assets	4.58%	4.10%	48	bps
Yield on interest-earning assets (FTE) ⁽¹⁾	4.65%	4.25%	40	bps
Average interest-bearing liabilities	\$ 8,790,803	\$ 6,382,452	\$ 2,408,351	
Interest expense	\$ 25,400	\$ 13,652	\$ 11,748	
Cost of interest-bearing liabilities	1.15%	0.85%	30	bps
Cost of funds	0.89%	0.66%	23	bps
Net interest income	\$ 105,963	\$ 70,847	\$ 35,116	
Net interest income (FTE) ⁽¹⁾	\$ 107,977	\$ 73,846	\$ 34,131	
Net interest margin	3.69%	3.44%	25	bps
Net interest margin (FTE) ⁽¹⁾	3.76%	3.59%	17	bps

(1) Refer to the “Non-GAAP Financial Measures” section within this Item 2 for more information about these measures, including a reconciliation of these measures to the most directly comparable financial measures calculated in accordance with GAAP.

For the third quarter of 2018, net interest income was \$106.0 million, an increase of \$35.1 million from the third quarter of 2017. For the third quarter of 2018, net interest income (FTE) was \$108.0 million, an increase of \$34.1 million from the third quarter of 2017. The increases in both net interest income and net interest income (FTE) were primarily the result of a \$3.2 billion increase in average interest-earning assets and a \$2.4 billion increase in average interest-bearing liabilities from the impact of the acquisition of Xenith during the three months ended September 30, 2018 compared to the three months ended September 30, 2017. Net accretion related to acquisition accounting increased \$2.2 million from the third quarter of 2017 to \$3.9 million in the third quarter of 2018. In the third quarter of 2018, net interest margin increased 25 basis points to

3.69% from 3.44% in the third quarter of 2017, and net interest margin (FTE) increased 17 basis points compared to the third quarter of 2017. The net increases in net interest margin and net interest margin (FTE) measures were primarily driven by an increase in the yield on earnings assets, partially offset by a smaller increase in cost of funds during the three months ended September 30, 2018 compared to the three months ended September 30, 2017.

	For the Nine Months Ended September 30,		
	2018	2017	Change
	<i>(Dollars in thousands)</i>		
Average interest-earning assets	\$ 11,506,200	\$ 7,922,944	\$ 3,583,256
Interest and dividend income	\$ 388,151	\$ 241,865	\$ 146,286
Interest and dividend income (FTE) ⁽¹⁾	\$ 394,011	\$ 250,548	\$ 143,463
Yield on interest-earning assets	4.51%	4.08%	43 bps
Yield on interest-earning assets (FTE) ⁽¹⁾	4.58%	4.23%	35 bps
Average interest-bearing liabilities	\$ 9,019,738	\$ 6,196,663	\$ 2,823,075
Interest expense	\$ 70,549	\$ 35,947	\$ 34,602
Cost of interest-bearing liabilities	1.05%	0.78%	27 bps
Cost of funds	0.82%	0.61%	21 bps
Net interest income	\$ 317,602	\$ 205,918	\$ 111,684
Net interest income (FTE) ⁽¹⁾	\$ 323,462	\$ 214,601	\$ 108,861
Net interest margin	3.69%	3.47%	22 bps
Net interest margin (FTE) ⁽¹⁾	3.76%	3.62%	14 bps

(1) Refer to the “Non-GAAP Financial Measures” section within this Item 2 for more information about these non-GAAP financial measures, including a reconciliation of these measures to the most directly comparable financial measures calculated in accordance with GAAP.

For the first nine months of 2018, net interest income was \$317.6 million, an increase of \$111.7 million from the same period of 2017. For the first nine months of 2018, net interest income (FTE) was \$323.5 million, an increase of \$108.9 million from the same period of 2017. The increases in both net interest income and net interest income (FTE) were primarily the result of a \$3.6 billion increase in average interest-earning assets and a \$2.8 billion increase in average interest-bearing liabilities from the impact of the acquisition of Xenith during the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. Net interest margin (FTE) includes the impact of acquisition accounting fair value adjustments. Net accretion related to acquisition accounting increased \$10.6 million from the first nine months of 2017 to \$15.4 million for the first nine months of 2018. In the first nine months of 2018, net interest margin increased 22 basis points to 3.69% from 3.47% in the first nine months of 2017, and net interest margin (FTE) increased 14 basis points compared to the first nine months of 2017. The net increases in net interest margin and net interest margin (FTE) measures were primarily driven by an increase in the yield on earnings assets, partially offset by a smaller increase in cost of funds during the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017.

The following tables show interest income on earning assets and related average yields as well as interest expense on interest-bearing liabilities and related average rates paid for the periods indicated:

Cost of funds			0.82%			0.61%
Net interest margin			3.76%			3.62%

(1) Income and yields are reported on a taxable equivalent basis using the statutory federal corporate tax rate of 21% for the nine months ended September 30, 2018 and 35% for the nine months ended September 30, 2017.

(2) Rates and yields are annualized and calculated from actual, not rounded, amounts in thousands, which appear above.

(3) Nonaccrual loans are included in average loans outstanding.

(4) Interest income on loans includes \$13.7 million and \$4.7 million for the nine months ended September 30, 2018 and 2017, respectively, in accretion of the fair market value adjustments related to acquisitions.

(5) Interest expense on time deposits includes \$2.1 million and \$0 for the nine months ended September 30, 2018 and 2017, respectively, in accretion of the fair market value adjustments related to acquisitions.

(6) Interest expense on borrowings includes \$345,000 and (\$142,000) for the nine months ended September 30, 2018 and 2017, respectively, in amortization (accretion) of the fair market value adjustments related to acquisitions.

The table below presents changes in interest income and interest expense and distinguishes between the changes related to increases or decreases in average outstanding balances of interest-earning assets and interest-bearing liabilities (volume), and the changes related to increases or decreases in average interest rates on such assets and liabilities (rate). Changes attributable to both volume and rate have been allocated proportionally. Results, on a taxable equivalent basis, are as follows (dollars in thousands):

	Three Months Ended			Nine Months Ended		
	September 30, 2018 vs. September 30, 2017			September 30, 2018 vs. September 30, 2017		
	Increase (Decrease) Due to Change in:			Increase (Decrease) Due to Change in:

Change in net interest income	\$ 31,220	\$ 2,911	\$ 34,131	\$ 99,650	\$ 9,211	\$ 108,861

(1) The rate-related change in interest income on loans includes the impact of higher accretion of the acquisition-related fair market value adjustments of \$1.8 million and \$9.0 million for the three- and nine-month change, respectively.

(2) The rate-related change in interest expense on deposits includes the impact of higher accretion of the acquisition-related fair market value adjustments of \$592,000 and \$2.1 million for the three- and nine-month change, respectively.

(3) The rate-related change in interest expense on other borrowings includes the impact of higher amortization of the acquisition-related fair market value adjustments of \$190,000 and \$487,000 for the three- and nine-month change, respectively.

The Company's net interest margin (FTE) includes the impact of acquisition accounting fair value adjustments. The net accretion impact for the first three quarters of 2018 as well as the remaining estimated net accretion impact are reflected in the following table (dollars in thousands):

	Loan Accretion	Deposit Accretion	Borrowings Accretion (Amortization)	Total
For the quarter ended March 31, 2018	\$ 4,846	\$ 832	\$ (98)	\$ 5,580

2023	2,710	—	(850)	1,860
Thereafter	9,751	—	(11,633)	(1,882)

Noninterest Income

	For the Three Months Ended		Change	
	September 30,		\$	%
	2018	2017		
<i>(Dollars in thousands)</i>				
Noninterest income:				
Service charges on deposit accounts	\$ 6,483	\$ 4,795	\$ 1,688	35.2 %
Other service charges and fees	1,625	1,131	494	43.7 %
Interchange fees, net	4,882	3,756	1,126	30.0 %
Fiduciary and asset management fees	4,411	2,794	1,617	57.9 %
Gains on securities transactions, net	97	184	(87)	(47.3)%
Bank owned life insurance income	1,732	1,377	355	25.8 %
Loan-related interest rate swap fees	562	416	146	35.1 %
Gain on Shore Premier sale	(933)	—	(933)	(100.0)%
Other operating income	1,028	777	251	32.3 %
Total noninterest income	\$ 19,887	\$ 15,230	\$ 4,657	30.6 %

Noninterest income increased \$4.7 million, or 30.6%, to \$19.9 million for the quarter ended September 30, 2018 compared to the quarter ended September 30, 2017. Customer-related fee income increased by \$3.3 million primarily due to increases in overdraft and debit card interchange fees related to the acquisition of Xenith. Fiduciary and asset management fees were \$1.6 million higher primarily due to the acquisitions of DHFB and OAL in the second and third quarters of 2018, respectively. These increases were partially offset by a reduction of \$933,000 in the initial estimated pre-tax gain recorded in the second quarter of 2018 for the Shore Premier sale due to updated information and wind-down costs incurred.

	For the Nine Months Ended		Change	
	September 30,		\$	%
	2018	2017		
<i>(Dollars in thousands)</i>				
Noninterest income:				
Service charges on deposit accounts	\$ 18,566	\$ 13,924	\$ 4,642	33.3 %
Other service charges and fees	4,137	3,391	746	22.0 %

Fiduciary and asset management fees	11,507	8,313	3,194	38.4 %
Gains on securities transactions, net	222	782	(560)	(71.6)%
Bank owned life insurance income	5,126	4,837	289	6.0 %
Loan-related interest rate swap fees	2,178	2,627	(449)	(17.1)%
Gain on Shore Premier sale	19,966	—	19,966	100.0 %
Other operating income	4,887	2,226	2,661	119.5 %
Total noninterest income	\$ 80,752	\$ 47,305	\$ 33,447	70.7 %

Noninterest income increased \$33.4 million, or 70.7%, to \$80.8 million for the nine months ended September 30, 2018 from \$47.3 million for the nine months ended September 30, 2017, primarily driven by the net gain on the Shore Premier sale of \$20.0 million. Excluding this gain, noninterest income increased \$13.5 million, or 28.5%, for the first nine months of 2018 compared to the same period in 2017. Customer-related fee income increased by \$8.3 million primarily due to increases in overdraft and debit card interchange fees related to the acquisition of Xenith; fiduciary and asset management fees were \$3.2 million higher primarily due to the acquisitions of DHFB and OAL in the second and third quarter of 2018, respectively; and an increase of \$2.7 million in other operating income included a gain of \$1.4 million related to the sale of the Company's ownership interest in a payments-related company. These increases were partially offset by lower loan-related interest rate swap fees and lower gains on the sale of securities in the first nine months of 2018 compared to the first nine months of 2017.

Other expenses	2,081	1,355	726	53.6 %
Total noninterest expense	\$ 76,349	\$ 55,204	\$ 21,145	38.3 %

Noninterest expense increased \$21.1 million, or 38.3%, to \$76.3 million for the quarter ended September 30, 2018 compared to \$55.2 million for the third quarter of 2017. Excluding merger-related costs of \$1.4 million and \$732,000 in the third quarters of 2018 and 2017, respectively, operating noninterest expense ⁽¹⁾ for the quarter ended September 30, 2018 increased \$20.4 million, or 37.5%, compared to the third quarter of 2017. The increase in noninterest expense was primarily driven by the acquisitions of Xenith, DHFB, and OAL, branch closure costs of approximately \$475,000, and \$714,000 related to executive management changes recorded in the third quarter of 2018.

(1) Refer to the “Non-GAAP Financial Measures” section within this Item 2 for more information about this non-GAAP financial measure, including a reconciliation of these measures to the most directly comparable financial measures calculated in accordance with GAAP.

NM - Not meaningful

Noninterest expense increased \$95.4 million, or 56.8%, to \$263.2 million for the nine months ended September 30, 2018 compared to \$167.9 million for the nine months ended 2017. Excluding merger-related costs of \$37.4 million and \$3.5 million in 2018 and 2017, respectively, operating noninterest expense for the nine months ended September 30, 2018 increased \$61.4 million, or 37.4%, compared to the same period in 2017, primarily driven by the acquisitions of Xenith, DHFB, and OAL, branch closure costs of approximately \$1.1 million recorded in the second and third quarters of 2018, and \$714,000 in costs related to executive management changes during the quarter.

Income Taxes

The provision for income taxes is based upon the results of operations, adjusted for the effect of certain tax-exempt income and non-deductible expenses. In addition, certain items of income and expense are reported in different periods for financial reporting and tax return purposes. The tax effects of these temporary differences are recognized currently in the deferred income tax provision or benefit. Deferred tax assets or liabilities are computed based on the difference between the financial statement and income tax bases of assets and liabilities using the applicable enacted marginal tax rate.

The Tax Act was signed into law in December 2017. The Company's preliminary estimate of the impact of the Tax Act is based on currently available information and interpretation of its provisions. The actual results may differ from the current estimate due to, among other things, further guidance that may be issued by U.S. tax authorities or regulatory bodies and/or changes in interpretations and assumptions that the Company has made on a preliminary basis. The Company's evaluation of the impact of the Tax Act is subject to refinement for up to one year after enactment per the guidance under ASC 740, *Accounting for Uncertainty in Income Taxes*, and Staff Accounting Bulletin No.118. No additional adjustments related to the Tax Act were recorded in the third quarter of 2018.

The Bank is not subject to a state income tax in its primary place of business (Virginia). The Company's other subsidiaries are subject to state income taxes and have historically generated losses for state income tax purposes. State net operating loss carryovers will begin to expire after 2026.

The effective tax rate for the three months ended September 30, 2018 and 2017 was 15.9% and 26.7%, respectively; the effective tax rate for the nine months ended September 30, 2018 and 2017 was 16.6% and 26.9%, respectively. The decrease in the effective tax rate compared to the third quarter of 2017 is primarily due to the reduction in the federal tax rate under the Tax Act.

BALANCE SHEET

Assets

At September 30, 2018, total assets were \$13.4 billion, an increase of \$4.1 billion from \$9.3 billion at December 31, 2017, reflecting the impact of the acquisition of Xenith.

On January 1, 2018, the Company completed its acquisition of Xenith. Below is a summary of the transaction and related impact on the Company's balance sheet.

- The fair value of assets acquired equaled \$3.243 billion, and the fair value of liabilities assumed equaled \$2.867 billion.
- Loans held for investment acquired totaled \$2.507 billion with a fair value of \$2.454 billion.
- Total deposits assumed totaled \$2.546 billion with a fair value of \$2.550 billion.
- Total goodwill arising from the transaction equaled \$424.6 million.
- Core deposit intangibles acquired totaled \$38.5 million.

Fair values are preliminary and subject to refinement for up to one year after the closing date of the acquisition, in accordance with ASC 805, *Business Combinations*.

Loans held for investment, net of deferred fees and costs, were \$9.4 billion at September 30, 2018, an increase of \$2.3 billion, or 31.8%, from December 31, 2017. On a pro forma basis, including Xenith loans, loans held for investment decreased \$184.1 million from January 1, 2018, primarily due to the Shore Premier sale and the sale of consumer home improvement loans that had been originated through a third-party lending program. Further adjusted for the sale of these loans, on a pro forma basis, loans held for investment grew \$379.0 million, or 5.6% (annualized), from January 1, 2018. Quarterly average loans increased \$2.5 billion, or 36.3%, for the quarter ended September 30, 2018 compared to the quarter ended September 30, 2017 due to the Xenith acquisition. Refer to "Loan Portfolio" within Item 2 and Note 4 "Loans and Allowance for Loan Losses" in Part I of Item I for additional information on the Company's loan activity.

Liabilities and Stockholders' Equity

At September 30, 2018, total liabilities were \$11.5 billion, an increase of \$3.2 billion from December 31, 2017.

Total deposits were \$9.8 billion at September 30, 2018, an increase of \$2.8 billion, or 40.7%, from December 31, 2017. On a pro forma basis, including Xenith deposits, deposits grew \$293.3 million, or 4.1% (annualized) from January 1, 2018. Quarterly average deposits increased \$3.0 billion, or 44.2%, for the quarter ended September 30, 2018 compared to the quarter ended September 30, 2017 due to the Xenith acquisition. Refer to "Deposits" within this Item 2 for further discussion on this topic.

At September 30, 2018, stockholders' equity was \$1.9 billion, an increase of \$833.7 million from December 31, 2017. The Company's capital ratios continue to exceed the minimum capital requirements for regulatory purposes. Refer to "Capital Resources" within this Item 2 for additional information on the Company's capital ratios.

The Company declared and paid a cash dividend of \$0.23 per share during the third quarter of 2018, an increase of \$0.03 per share, or 15.0%, compared to the dividend paid during the third quarter of 2017. Dividends for the nine months ended September 30, 2018 were \$0.65 per share, an increase of \$0.05 per share, or 8.3%, compared to the nine months ended September 30, 2017.

Securities

At September 30, 2018, the Company had total investments in the amount of \$2.3 billion, or 16.9% of total assets, as compared to \$1.2 billion, or 13.4% of total assets, at December 31, 2017. The Company seeks to diversify its portfolio to minimize risk. It focuses on purchasing mortgage-backed securities for cash flow and reinvestment opportunities and securities issued by states and political subdivisions due to the tax benefits and the higher yield offered from these securities. The majority of the Company's mortgage-backed securities are investment grade. The investment portfolio has a high percentage of municipals and mortgage-backed securities; therefore the Company earns a higher taxable equivalent yield on its portfolio as compared to many of its peers. The Company does not engage in structured derivative or hedging activities within the investment portfolio.

The table below sets forth a summary of the AFS securities, HTM securities, marketable equity securities, and restricted stock as of the dates indicated (dollars in thousands):

	September 30, 2018	December 31, 2017
Available for Sale:		
Obligations of states and political subdivisions	\$ 563,473	\$ 301,824

Total restricted stock, at cost	112,390	75,283
Total investments	\$ 2,258,239	\$ 1,249,144

During each quarter and at year end, the Company conducts an assessment of the securities portfolio for OTTI consideration. No OTTI was recognized during the three and nine months ended September 30, 2018. The Company monitors the portfolio, which is subject to liquidity needs, market rate changes, and credit risk changes, to determine whether adjustments are needed. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

The following table summarizes the contractual maturity of AFS securities at fair value and their weighted average yields as of September 30, 2018 (dollars in thousands):

	1 Year or Less	1 - 5 Years	5 - 10 Years	Over 10 Years	Total

(1) Yields on tax-exempt securities have been computed on a tax-equivalent basis.

The following table summarizes the contractual maturity of HTM securities at carrying value and their weighted average yields as of September 30, 2018 (dollars in thousands):

	1 Year or Less	1 - 5 Years	5 - 10 Years	Over 10 Years	Total
Obligations of states and political subdivisions:					
Carrying value	\$ —	\$ 3,917	\$ 3,500	\$ 227,916	\$ 235,333
Fair value	—	3,889	3,479	225,342	232,710
Weighted average yield ⁽¹⁾	—%	2.31%	2.64%	3.87%	3.83%

(1) Yields on tax-exempt securities have been computed on a tax-equivalent basis.

As of September 30, 2018, the Company maintained a diversified municipal bond portfolio with approximately 63% of its holdings in general obligation issues and the majority of the remainder backed by revenue bonds. Issuances within the States of Texas and Virginia represented 16% and 11%, respectively, and the State of Washington represented 10% of the municipal portfolio; no other state had a concentration above 10%. Substantially all municipal holdings are considered investment grade. When purchasing municipal securities, the Company focuses on strong underlying ratings for general obligation issuers or bonds backed by essential service revenues.

Liquidity

Liquidity represents an institution's ability to meet present and future financial obligations through either the sale or maturity of existing assets or the acquisition of additional funds through liability management. Liquid assets include cash, interest-bearing deposits with banks, money market investments, federal funds sold, loans held for sale, and securities and loans maturing or re-pricing within one year. Additional sources of liquidity available to the Company include its capacity to borrow additional funds when necessary through federal funds lines with several correspondent banks, a line of credit with the FHLB, the purchase of brokered certificates of deposit, and a corporate line of credit with a large correspondent bank. Management considers the Company's overall liquidity to be sufficient to satisfy its depositors' requirements and to meet its customers' credit needs.

As of September 30, 2018, liquid assets totaled \$3.8 billion, or 28.7%, of total assets, and liquid earning assets totaled \$3.7 billion, or 31.3% of total earning assets. Asset liquidity is also provided by managing loan and securities maturities and cash flows. As of September 30, 2018, approximately \$3.3 billion, or 34.9% of total loans, are scheduled to mature within one year based on contractual maturity, adjusted for expected prepayments, and approximately \$279.5 million, or 12.4% of total securities, are scheduled to mature within one year.

Additional sources of liquidity available to the Company include its capacity to borrow additional funds when necessary. Refer to Note 6 "Borrowings" in Part I of Item 1 for additional information and the available balances on various lines of credit. In addition to lines of credit, the Bank may also borrow additional funds by purchasing certificates of deposit through a nationally recognized network of financial institutions. Refer to "Deposits" within this Item 2 for additional information and outstanding balances on purchased certificates of deposits.

Loan Portfolio

Loans held for investment, net of deferred fees and costs, were \$9.4 billion at September 30, 2018, \$7.1 billion at December 31, 2017, and \$6.9 billion at September 30, 2017, respectively. Commercial real estate - non-owner occupied loans continue to represent the Company's largest category, comprising 25.8% of the total loan portfolio at September 30, 2018.

The following table presents the Company's composition of loans held for investment, net of deferred fees and costs, in dollar amounts and as a percentage of total gross loans as of the quarter ended (dollars in thousands):

	September 30, 2018		June 30, 2018		March 31, 2018		December 31, 2017		September 30, 2017

The Company remains committed to originating soundly underwritten loans to qualifying borrowers within its markets. The Company is focused on providing community-based financial services and discourages the origination of portfolio loans outside of its principal trade areas. As reflected in the loan table, at September 30, 2018, the largest components of the Company's loan portfolio consisted of commercial real estate, construction and land development, and commercial & industrial loans. The risks attributable to these concentrations are mitigated by the Company's credit underwriting and monitoring processes, including oversight by a centralized credit administration function and credit policy and risk management committee, as well as seasoned bankers focusing their lending to borrowers with proven track records in markets with which the Company is familiar.

Asset Quality

Overview

At September 30, 2018, the Company had higher levels of NPAs compared to December 31, 2017, primarily related to nonaccrual additions of construction, mortgage, and commercial & industrial loans and acquired OREO. NPAs as a percentage of total outstanding loans held for investment remained consistent with December 31, 2017. As the Company's NPAs and past due loan levels have been at or near historic lows over the last several quarters, certain changes from quarter to quarter might stand out in comparison to one another but have an insignificant impact on the Company's overall asset quality position.

Net charge-offs decreased for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. Total net charge-offs as a percentage of total average loans on an annualized basis also decreased for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. The provision for loan losses increased for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017, as a result of loan growth during 2018. The ALL at September 30, 2018 increased from December 31, 2017 primarily due to organic loan growth during the first nine months of 2018.

All nonaccrual and past due loan metrics discussed below exclude PCI loans totaling \$94.7 million (net of fair value mark of \$24.3 million) at September 30, 2018.

The accompanying unaudited consolidated financial statements, notes, and MD&A reflect reclassification of certain prior period amounts to conform to the current period presentation. The Company historically presented former bank premises and foreclosed properties as OREO; however, during the current quarter the Company segregated former bank premises and foreclosed properties due to the distinct differences underlying these assets. Foreclosed properties and former bank premises have been reclassified to "Other Assets" within the Company's Consolidated Balance Sheet for all periods presented. In addition, the Company no longer includes former bank premises when discussing nonperforming assets when discussing asset quality. This reclassification was not material to the unaudited consolidated financial statements or the MD&A.

Troubled Debt Restructurings

The total recorded investment in TDRs as of September 30, 2018 was \$28.3 million, an increase of \$10.9 million, or 62.5%, from \$17.4 million at December 31, 2017 and an increase of \$9.0 million, or 46.9%, from \$19.4 million at September 30, 2017. Of the \$28.3 million of TDRs at September 30, 2018, \$19.9 million, or 70.2%, were considered performing while the remaining \$8.4 million were considered nonperforming.

Loans removed from TDR status represent restructured loans with a market rate of interest at the time of the restructuring. These loans have performed in accordance with their modified terms for 12 consecutive months and were no longer considered impaired. Loans removed from TDR status are collectively evaluated for impairment; due to the significant improvement in the expected future cash flows, these loans are grouped based on their primary risk characteristics, which is included in the Company's general reserve. Impairment is measured based on historical loss experience taking into consideration environmental factors. The significant majority of these loans have been subject to new credit decisions due to the improvement in the expected future cash flows, the financial condition of the borrower, and other factors considered during re-underwriting. The TDR activity during the quarter did not have a material impact on the Company's ALL, financial condition, or results of operations.

Nonperforming Assets

At September 30, 2018, NPAs totaled \$34.9 million, an increase of \$7.9 million, or 29.3%, from December 31, 2017 and an increase of \$8.3 million, or 31.4%, from September 30, 2017. In addition, NPAs as a percentage of total outstanding loans declined 1 basis point from 0.38% at December 31, 2017 and 2 basis points from 0.39% at September 30, 2017 to 0.37% at September 30, 2018.

The following table shows a summary of asset quality balances and related ratios as of and for the quarters ended (dollars in thousands):

	September 30, 2018	June 30, 2018	March 31, 2018	December 31, 2017	September 30, 2017

Total	\$ 6,800	\$ 7,241	\$ 8,079	\$ 5,253	\$ 6,449

Past Due Loans

At September 30, 2018, total accruing past due loans were \$46.6 million, or 0.49% of total loans, compared to \$27.8 million, or 0.39% of total loans, at December 31, 2017 and \$34.4 million, or 0.50% of total loans, at September 30, 2017. Of the total past due loans still accruing interest at September 30, 2018, \$9.5 million, or 0.10% of total loans, were past due 90 days or more, compared to \$3.5 million, or 0.05% of total loans, at December 31, 2017 and \$4.5 million, or 0.07% of total loans, at September 30, 2017.

Net Charge-offs

For the quarter ended September 30, 2018, net charge-offs were \$3.2 million, or 0.13% of average loans on an annualized basis, compared to \$4.1 million, or 0.24%, for the same quarter last year. The majority of net charge-offs in the third quarter of 2018 were related to consumer loans. For the nine months ended September 30, 2018, net charge-offs were \$6.0 million, or 0.08% of total average loans on annualized basis, compared to \$7.4 million, or 0.15%, for the same period in 2017.

Provision for Loan Losses

The provision for loan losses for the quarter ended September 30, 2018 was \$3.1 million, an increase of \$44,000 compared with the quarter ended September 30, 2017. The provision for loan losses for the nine months ended September 30, 2018 was \$9.3 million compared to \$7.4 million for the nine months ended September 30, 2017. The increase in the provision for loan losses compared to the first nine months of 2017 was primarily driven by loan growth during the first nine months of 2018.

Allowance for Loan Losses

The ALL of \$41.3 million at September 30, 2018, is an increase of \$3.1 million compared to the ALL at December 31, 2017 primarily due to organic loan growth during the period. The current level of the ALL reflects specific reserves related to nonperforming loans, current risk ratings on loans, net charge-off activity, loan growth, delinquency trends, and other credit risk factors that the Company considers important in assessing the adequacy of the ALL. The ALL as a percentage of the total loans held for investment was 0.44% at September 30, 2018 and 0.54% at both December 31, 2017 and September 30, 2017. The decline in the allowance ratio was primarily attributable to the acquisition of Xenith in the first quarter of 2018. In acquisition accounting, there is no carryover of previously established ALL.

The following table summarizes activity in the ALL during the quarters ended (dollars in thousands):

	September 30, 2018	June 30, 2018	March 31, 2018	December 31, 2017	September 30, 2017

(1) Represents the loan balance divided by total loans held for investment.

Deposits

As of September 30, 2018, total deposits were \$9.8 billion, an increase of \$2.8 billion, or 40.7%, from December 31, 2017. Total interest-bearing deposits consist of NOW, money market, savings, and time deposit account balances. Total time deposit balances of \$2.1 billion accounted for 27.5% of total interest-bearing deposits at September 30, 2018.

The following table presents the deposit balances by major category as of the quarters ended (dollars in thousands):

Deposits:	September 30, 2018		December 31, 2017	
	Amount	% of total deposits	Amount	% of total deposits
Noninterest bearing	\$ 2,189,887	22.3%	\$ 1,502,208	21.5%
NOW accounts	2,205,262	22.4%	1,929,416	27.6%
Money market accounts	2,704,480	27.5%	1,685,174	24.1%
Savings accounts	635,788	6.4%	546,274	7.8%
Time deposits of \$100,000 and over	1,078,448	11.0%	624,112	8.9%
Other time deposits	1,020,830	10.4%	704,534	10.1%
Total Deposits	\$ 9,834,695	100.0%	\$ 6,991,718	100.0%

The Company may also borrow additional funds by purchasing certificates of deposit through a nationally recognized network of financial institutions. The Company utilizes this funding source when rates are more favorable than other funding sources. As of September 30, 2018 and December 31, 2017, there were \$176.6 million and \$11.0 million, respectively, purchased certificates of deposit included in certificates of deposit on the Company's Consolidated Balance Sheet.

Maturities of time deposits as of September 30, 2018 were as follows (dollars in thousands):

	Amount
Within 3 Months	\$ 390,259
3 - 12 Months	851,682
Over 12 Months	857,337
Total	\$ 2,099,278

Capital Resources

Capital resources represent funds, earned or obtained, over which financial institutions can exercise greater or longer control in comparison with deposits and borrowed funds. The adequacy of the Company's capital is reviewed by management on an ongoing basis with reference to size, composition, and quality of the Company's resources and consistency with regulatory requirements and industry standards. Management seeks to maintain a capital structure that will assure an adequate level of capital to support anticipated asset growth and to absorb potential losses, yet allow management to effectively leverage its capital to maximize return to shareholders.

In July 2013, the Federal Reserve issued final rules to include technical changes to its market risk capital rules to align them with the Basel III regulatory capital framework and meet certain requirements of the Dodd-Frank Act. Effective January 1, 2015, the final rules require the Company and the Bank to comply with the following minimum capital ratios: (i) a new common equity Tier 1 capital ratio of 4.5% of risk-weighted assets; (ii) a Tier 1 capital ratio of 6.0% of risk-weighted assets (increased from the prior requirement of 4.0%); (iii) a total capital ratio of 8.0% of risk-weighted assets (unchanged from the prior requirement); and (iv) a leverage ratio of 4.0% of total assets (unchanged from the prior requirement). These capital requirements will be phased in over a four-year period. When fully phased in on January 1, 2019, the rules will require the Company and the Bank to maintain (i) a minimum ratio of common equity Tier 1 to risk-weighted assets of at least 4.5%, plus a 2.5% "capital conservation buffer" (which is added to the 4.5% common equity Tier 1 ratio as that buffer is phased in,

effectively resulting in a minimum ratio of common equity Tier 1 to risk-weighted assets of at least 7.0% upon full implementation), (ii) a minimum ratio of Tier 1 capital to risk-weighted assets of at least 6.0%, plus the 2.5% capital conservation buffer (which is added to the 6.0% Tier 1 capital ratio as that buffer is phased in, effectively resulting in a minimum Tier 1 capital ratio of 8.5% upon full implementation), (iii) a minimum ratio of total capital to risk-weighted assets of at least 8.0%, plus the 2.5% capital conservation buffer (which is added to the 8.0% total capital ratio as that buffer is phased in, effectively resulting in a minimum total capital ratio of 10.5% upon full implementation), and (iv) a minimum leverage ratio of 4.0%, calculated as the ratio of Tier 1 capital to average assets.

Beginning January 1, 2016, the capital conservation buffer requirement began to be phased in at 0.625% of risk-weighted assets, and will increase by the same amount each year until fully implemented at 2.5% on January 1, 2019. As of September 30, 2018, the capital conservation buffer was 1.875% of risk-weighted assets. The capital conservation buffer is designed to absorb losses during periods of economic stress. Banking institutions with a ratio of common equity Tier 1 to risk-weighted assets above the minimum but below the conservation buffer will face constraints on dividends, equity repurchases, and compensation based on the amount of the shortfall.

The Company's trust preferred capital notes currently qualify for Tier 1 capital of the Company for regulatory purposes. The trust preferred capital notes will phase-out for Tier 1 capital when an acquisition occurs and total assets exceed \$15.0 billion .

The table summarizes the Company's capital and related ratios for the periods presented ⁽³⁾ (dollars in thousands):

	September 30, 2018	December 31, 2017	September 30, 2017
Common equity Tier 1 capital	\$ 1,069,539	\$ 737,204	\$ 734,892
Tier 1 capital	1,199,189	826,979	825,392
Tier 2 capital	199,301	186,809	186,012
Total risk-based capital	1,398,491	1,013,788	1,011,404
Risk-weighted assets	10,780,051	8,157,174	7,817,079
Capital ratios:			
Common equity Tier 1 capital ratio	9.92%	9.04%	9.40%
Tier 1 capital ratio	11.12%	10.14%	10.56%
Total capital ratio	12.97%	12.43%	12.94%
Leverage ratio (Tier 1 capital to average assets)	9.89%	9.42%	9.52%
Capital conservation buffer ratio ⁽¹⁾	4.97%	4.14%	4.56%
Common equity to total assets	14.06%	11.23%	11.53%
Tangible common equity to tangible assets ⁽²⁾	8.74%	8.14%	8.34%

(1) Calculated by subtracting the regulatory minimum capital ratio requirements from the Company's actual ratio results for Common equity, Tier 1, and Total risk based capital. The lowest of the three measures represents the Company's capital conservation buffer ratio.

(2) Refer to "Non-GAAP Financial Measures" section within this Item 2 for more information about this non-GAAP financial measure, including a reconciliation of this measure to the most directly comparable financial measure calculated in accordance with GAAP

(3) All ratios and amounts at September 30, 2018 are estimates and subject to change pending the Company's filing of its FR Y9-C. All other periods are presented as filed.

NON-GAAP FINANCIAL MEASURES

In reporting the results of the three and nine months ended September 30, 2018, the Company has provided supplemental performance measures on a tax-equivalent, tangible, and/or operating basis. These non-GAAP financial measures are a supplement to GAAP, which is used to prepare the Company's financial statements, and should not be considered in isolation or as a substitute for comparable measures calculated in accordance with GAAP. In addition, the Company's non-GAAP financial measures may not be comparable to non-GAAP financial measures of other companies. The Company uses the non-GAAP financial measures discussed herein in its analysis of the Company's performance.

Net interest income (FTE), which is used in computing net interest margin (FTE) and efficiency ratio (FTE), provides valuable additional insight into the net interest margin and the efficiency ratio by adjusting for differences in tax treatment of interest income sources. The entire FTE adjustment is attributable to interest income on earning assets, which is used in computing yield on earning assets. Interest expense and the related cost of interest-bearing liabilities and cost of funds ratios are not affected by the FTE components.

The Company believes tangible common equity is an important indication of its ability to grow organically and through business combinations as well as its ability to pay dividends and to engage in various capital management strategies. Tangible common equity is used in the calculation of certain profitability, capital, and per share ratios. The Company believes tangible common equity and related ratios are meaningful measures of capital adequacy because they provide a meaningful base for period-to-period and company-to-company comparisons, which the Company believes will assist investors in assessing the capital of the Company and its ability to absorb potential losses.

Operating measures exclude merger-related costs unrelated to the Company's normal operations. The Company believes these measures are useful to investors as they exclude certain costs resulting from acquisition activity and allow investors to more clearly see the combined economic results of the organization's operations.

The following table reconciles these non-GAAP financial measures from the most directly comparable GAAP financial measures for each of the periods presented (dollars in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Interest Income (FTE)				
Interest and dividend income (GAAP)	\$ 131,363	\$ 84,499	\$ 388,151	\$ 241,865

ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in the fair value of financial instruments due to changes in interest rates, exchange rates, and equity prices. The Company's market risk is composed primarily of interest rate risk. The ALCO of the Company is responsible for reviewing the interest rate sensitivity position of the Company and establishing policies to monitor and limit exposure to this risk. The Company's Board of Directors reviews and approves the guidelines established by ALCO.

Interest rate risk is monitored through the use of three complementary modeling tools: static gap analysis, earnings simulation modeling, and economic value simulation (net present value estimation). Each of these models measures changes in a variety of interest rate scenarios. While each of the interest rate risk models has limitations, taken together they represent a reasonably comprehensive view of the magnitude of interest rate risk in the Company, the distribution of risk along the yield curve, the level of risk through time, and the amount of exposure to changes in certain interest rate relationships. Static gap, which measures aggregate re-pricing values, is less utilized because it does not effectively measure the options risk impact on the Company and is not addressed here. Earnings simulation and economic value models, which more effectively measure the cash flow and optionality impacts, are utilized by management on a regular basis and are explained below.

The Company determines the overall magnitude of interest sensitivity risk and then formulates policies and practices governing asset generation and pricing, funding sources and pricing, and off-balance sheet commitments. These decisions are based on management's expectations regarding future interest rate movements, the states of the national, regional, and local economies, and other financial and business risk factors. The Company uses simulation modeling to measure and monitor the effect of various interest rate scenarios and business strategies on net interest income. This modeling reflects interest rate changes and the related impact on net interest income and net income over specified time horizons.

Earnings Simulation Analysis

Management uses simulation analysis to measure the sensitivity of net interest income to changes in interest rates. The model calculates an earnings estimate based on current and projected balances and rates. This method is subject to the accuracy of the assumptions that underlie the process, but it provides a better analysis of the sensitivity of earnings to changes in interest rates than other analyses, such as the static gap analysis discussed above.

Assumptions used in the model are derived from historical trends and management's outlook and include loan and deposit growth rates and projected yields and rates. These assumptions may not materialize and unanticipated events and circumstances may occur. The model also does not take into account any future actions of management to mitigate the impact of interest rate changes. Such assumptions are monitored by management and periodically adjusted as appropriate. All maturities, calls, and prepayments in the securities portfolio are assumed to be reinvested in like instruments. Mortgage loans and mortgage-backed securities prepayment assumptions are based on industry estimates of prepayment speeds for portfolios with similar coupon ranges and seasoning. Different interest rate scenarios and yield curves are used to measure the sensitivity of earnings to changing interest rates. Interest rates on different asset and liability accounts move differently when the prime rate changes and are reflected in the different rate scenarios.

The Company uses its simulation model to estimate earnings in rate environments where rates are instantaneously shocked up or down around a "most likely" rate scenario, based on implied forward rates and futures curves. The analysis assesses the impact on net interest income over a 12 month time horizon after an immediate increase or "shock" in rates, of 100 basis points up to 300 basis points. The model, under all scenarios, does not drop the index below zero.

The following table represents the interest rate sensitivity on net interest income for the Company across the rate paths modeled for balances as of September 30, 2018 and 2017 (dollars in thousands):

	Change In Net Interest Income			
	September 30,			
	2018		2017	
	%	\$	%	\$
Change in Yield Curve:				
+300 basis points	7.34	32,889	7.65	23,401
+200 basis points	5.41	24,219	5.24	16,034
+100 basis points	2.76	12,369	2.82	8,634
Most likely rate scenario	—	—	—	—
-100 basis points	(3.40)	(15,236)	(3.21)	(9,828)
-200 basis points	(7.52)	(33,701)	(6.69)	(20,459)

Asset sensitivity indicates that in a rising interest rate environment the Company's net interest income would increase and in a decreasing interest rate environment the Company's net interest income would decrease. Liability sensitivity indicates that in a rising interest rate environment the Company's net interest income would decrease and in a decreasing interest rate environment the Company's net interest income would increase.

As of September 30, 2018, the Company's interest rate sensitivity was relatively the same as September 30, 2017 from a net interest income perspective. The Company would expect net interest income to increase with an immediate increase or shock in market rates. In the decreasing interest rate environments, the Company would expect a decline in net interest income as interest-earning assets re-price at lower rates and interest-bearing deposits remain near their floors.

Economic Value Simulation

Economic value simulation is used to calculate the estimated fair value of assets and liabilities over different interest rate environments. Economic values are calculated based on discounted cash flow analysis. The net economic value of equity is the economic value of all assets minus the economic value of all liabilities. The change in net economic value over different rate environments is an indication of the longer-term earnings capability of the balance sheet. The same assumptions are used in the economic value simulation as in the earnings simulation. The economic value simulation uses instantaneous rate shocks to the balance sheet.

The following chart reflects the estimated change in net economic value over different rate environments using economic value simulation for the balances at the quarterly periods ended September 30, 2018 and 2017 (dollars in thousands):

	Change In Economic Value of Equity			
	September 30,			
	2018		2017	
	%	\$	%	\$
Change in Yield Curve:				
+300 basis points	(4.48)	(117,972)	(1.11)	(16,200)
+200 basis points	(2.64)	(69,687)	(0.05)	(800)
+100 basis points	(1.03)	(27,234)	0.41	5,960
Most likely rate scenario	—	—	—	—
-100 basis points	(0.96)	(25,237)	(2.72)	(39,795)
-200 basis points	(3.59)	(94,539)	(8.27)	(120,822)

As of September 30, 2018, the Company was generally more sensitive to market interest rate fluctuations when compared to September 30, 2017 due to a higher concentrations of longer duration assets and shorter duration liabilities.

ITEM 4 – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of September 30, 2018. The term "disclosure controls and procedures," as defined in Rule 13a-15(e) under the Exchange Act, means controls and other procedures that are designed to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and to ensure that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of September 30, 2018, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

In designing and evaluating the Company's disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable assurance that the objectives of the disclosure controls and procedures are met. Additionally, in designing disclosure controls and procedures, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Changes in Internal Control Over Financial Reporting

There was no change in the internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended September 30, 2018 that has materially affected, or is reasonably likely to materially affect, the internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1 – LEGAL PROCEEDINGS

In the ordinary course of its operations, the Company and its subsidiaries are parties to various legal proceedings. Based on the information presently available, and after consultation with legal counsel, management believes that the ultimate outcome in such proceedings, in the aggregate, will not have a material adverse effect on the business or the financial condition or results of operations of the Company.

ITEM 1A – RISK FACTORS

There have been no material changes with respect to the risk factors disclosed in the Company's 2017 Form 10-K.

In addition to the risks factors disclosed in the Company's 2017 Form 10-K, the Company identified the following additional risks as a result of the pending acquisition of Access. Refer to Note 14 "Subsequent Events" in Part I, Item 1 and "Forward-Looking Statements" in Part I, Item 2 for additional information.

Failure of the Access Mergers to be completed, the termination of the Access Merger Agreement or a significant delay in the consummation of the Access Mergers could negatively impact the Company and Access.

On October 4, 2018, the Company signed a merger agreement (the "Access Merger Agreement"), which under the terms and subject to the conditions thereof (i) Access will merge with and into the Company, with the Company continuing as the continuing corporation (the "Access Merger"), and (ii) following the Access Merger, Access National Bank will merge with and into the Bank, with the Bank continuing as the continuing bank (the "Bank Merger," and, together with the Access Merger, the "Access Mergers"). The Access Merger Agreement is subject to a number of conditions which must be fulfilled in order to complete the Access Mergers. These conditions to the consummation of the Access Mergers may not be fulfilled and, accordingly, the Access Mergers may not be completed. In addition, if the Access Merger is not completed by October 4, 2019, either the Company or Access may choose to terminate the Access Merger Agreement at any time after that date if the failure of the Access Merger to be completed on or before that date is not caused by any breach of the Access Merger Agreement by the party electing to terminate the Access Merger Agreement, before or after shareholder approval.

If the Access Mergers are not consummated, the ongoing business, financial condition and results of operations of each party may be materially adversely affected and the market price of each party's common stock may decline significantly, particularly to the extent that the current market price reflects a market assumption that the Access Mergers will be consummated. If the consummation of the Access Mergers are delayed, including by the receipt of a competing acquisition proposal, the business, financial condition and results of operations of each company may be materially adversely affected.

In addition, each party has incurred and will incur substantial expenses in connection with the negotiation and completion of the transactions contemplated by the Access Merger Agreement. If the Access Mergers are not completed, the parties would have to recognize these expenses without realizing the expected benefits of the Access Mergers. Any of the foregoing, or other risks arising in connection with the failure of or delay in consummating the Access Mergers, including the diversion of management attention from pursuing other opportunities and the constraints in the Access Merger Agreement on the ability to make significant changes to each party's ongoing business during the pendency of the Access Merger, could have a material adverse effect on each party's business, financial condition and results of operations.

Additionally, the Company's or Access's business may have been adversely impacted by the failure to pursue other beneficial opportunities due to the focus of management on the Access Mergers, without realizing any of the anticipated benefits of completing the Access Mergers, and the market price of the Company's common stock or Access's common stock might decline to the extent that the current market price reflects a market assumption that the Access Mergers will be completed. If the Access Merger Agreement is terminated and a party's board of directors seeks another merger or business combination, such party's shareholders cannot be certain that such party will be able to find a party willing to engage in a transaction on more attractive terms than the Access Mergers.

Regulatory approvals may not be received, may take longer than expected or may impose conditions that are not presently anticipated or cannot be met.

Before the transactions contemplated by the Access Merger Agreement, including the Access Mergers, may be completed, various approvals must be obtained from bank regulatory authorities. In determining whether to grant these

approvals, the applicable regulatory authorities consider a variety of factors, including the competitive impact of the proposal in the relevant geographic markets; financial, managerial and other supervisory considerations of each party; convenience and needs of the communities to be served and the record of the insured depository institution subsidiaries under the Community Reinvestment Act of 1977 and the regulations promulgated thereunder; effectiveness of the parties in combating money laundering activities; and the extent to which the proposal would result in greater or more concentrated risks to the stability of the United States banking or financial system. These regulatory authorities may impose conditions on the granting of such approvals. Such conditions or changes and the process of obtaining regulatory approvals could have the effect of delaying completion of the Access Mergers or of imposing additional costs or limitations on the combined company following the Access Mergers. The regulatory approvals may not be received at all, may not be received in a timely fashion, or may contain conditions on the completion of the Access Mergers that are not anticipated or cannot be met or result in a Burdensome Condition (as such term is defined in the Access Merger Agreement). Furthermore, such conditions or changes may constitute a burdensome condition that may allow the Company to terminate the Access Merger Agreement and the Company may exercise its right to terminate the Access Merger Agreement. If the consummation of the Access Mergers is delayed, including by a delay in receipt of necessary regulatory approvals, the business, financial condition and results of operations of each company may also be materially and adversely affected.

The Company and Access will be subject to business uncertainties and contractual restrictions while the Access Mergers are pending.

Uncertainty about the effect of the Access Mergers on employees, customers (including depositors and borrowers), suppliers and vendors may have an adverse effect on the business, financial condition and results of operations of Access and the Company. These uncertainties may impair the Company's or Access's ability to attract, retain and motivate key personnel and customers (including depositors and borrowers) pending the consummation of the Access Mergers, as such personnel and customers may experience uncertainty about their future roles and relationships following the consummation of the Access Mergers. Additionally, these uncertainties could cause customers (including depositors and borrowers), suppliers, vendors and others who deal with Access and/or the Company to seek to change existing business relationships with Access and/or the Company or fail to extend an existing relationship with Access and/or the Company. In addition, competitors may target each party's existing customers by highlighting potential uncertainties and integration difficulties that may result from the Access Mergers.

The pursuit of the Access Mergers and the preparation for the integration may place a burden on each company's management and internal resources. Any significant diversion of management attention away from ongoing business concerns and any difficulties encountered in the transition and integration process could have a material adverse effect on each company's business, financial condition and results of operations.

In addition, the Access Merger Agreement restricts each party from taking certain actions without the other party's consent while the Access Merger is pending. These restrictions could have a material adverse effect on each party's business, financial condition and results of operations.

Combining the businesses of the Company and Access may be more difficult, costly or time consuming than expected and the anticipated benefits and cost savings of the Access Mergers may not be realized.

The success of the Access Mergers will depend on, among other things, the combined company's ability to combine the businesses of the Company and Access. If the combined company is not able to successfully achieve this objective, the anticipated benefits of the Access Mergers may not be realized fully, may take longer to realize than expected, or may not be realized at all.

The Company and Access have operated and, until the completion of the Access Mergers, will continue to operate, independently. The success of the Access Mergers, including anticipated benefits and cost savings, will depend, in part, on the successful combination of the businesses of the Company and Access. To realize these anticipated benefits and cost savings, after the completion of the Access Mergers, the Company expects to integrate Access's business into its own. It is possible that the integration process could result in the loss of key employees, the disruption of each company's ongoing businesses or inconsistencies in standards, controls, procedures and policies that adversely affect the combined company's ability to maintain relationships with clients, customers, depositors and employees or to achieve the anticipated benefits and cost savings of the Access Mergers. The loss of key employees could have an adverse effect on the companies' financial results and the value of its common stock. As with any merger of financial institutions, there also may be business disruptions that cause Access or the Company to lose current customers or cause current customers to remove their accounts and move their business to competing financial institutions. Integration efforts between the two companies will also divert management attention and resources. These integration matters could have an adverse effect on each of Access and the Company during this transition period and for an undetermined period after consummation of the Access Mergers.

ITEM 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) Sales of Unregistered Securities – None.

(b) Use of Proceeds – Not Applicable.

(c) Issuer Purchases of Securities - None.

ITEM 6 – EXHIBITS

The following exhibits are filed as part of this Form 10-Q and this list includes the Exhibit Index:

Exhibit No.	Description
2.01	<u>Agreement and Plan of Reorganization, dated October 4, 2018, by and between Union Bankshares Corporation and Access National Corporation (incorporated by reference to Exhibit 2.1 to Current Report on Form 8-K filed October 5, 2018).</u>
3.01	<u>Articles of Incorporation of Union Bankshares Corporation, as amended April 25, 2014 (incorporated by reference to Exhibit 3.1 to Current Report on Form 8-K filed on April 29, 2014).</u>
3.02	<u>Bylaws of Union Bankshares Corporation, as amended January 21, 2017 (incorporated by reference to Exhibit 3.02 to Annual Report on Form 10-K filed on February 28, 2017).</u>
10.01	<u>Form of Affiliate Agreement, dated October 4, 2018, by and between Union Bankshares Corporation, Access National Corporation and certain shareholders of Access National Corporation (incorporated by reference to Exhibit 10.1 to Current Report on Form 8-K filed October 5, 2018).</u>

Section 3: EX-31.01 (EXHIBIT 31.01)

Exhibit 31.01

CERTIFICATIONS

I, John C. Asbury, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Union Bankshares Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this

report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
